INFORMATION STATEMENT

PART I

A. General Information

Item 1. Date, time and place of meeting of stockholders

The 2013 Annual Meeting of Stockholders (the “Meeting”) of Anglo Philippine Holdings Corporation (the “Company”) will be held on Friday, 26 July 2013, 3:00 pm, at the Santan Rooms, EDSA Shangri-La Manila, Ortigas Center, Mandaluyong City, Philippines. The complete mailing address of the Company is 6th Floor, Quad Alpha Centrum, 125 Pioneer, Mandaluyong City 1550, Philippines.

- (a) This Information Statement will be sent to stockholders at least fifteen (15) business days prior to the date of the Meeting in accordance with existing rules and the Company’s Amended By-Laws, or on or before 05 July 2013.

Item 2. Dissenters' Right of Appraisal

A stockholder has the right to dissent and demand payment of the fair market value of his shares in case: (i) any amendment to the Company’s Articles of Incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences over the outstanding shares, or of extending or shortening the term of corporate existence; (ii) of any sale, lease, mortgage or disposition of all or substantially all of the corporate property or assets; and, (iii) of merger or consolidation.

At any time after this Information Statement has been sent out, any stockholder who voted against a proposed action and wishes to exercise his right of appraisal must make a written demand, within thirty (30) days after the date of the Meeting or when the vote was taken, for the payment of the fair market value of his shares. Upon payment, he must surrender his stock certificates. No payment shall be made to any stockholder unless the Company has unrestricted retained earnings in its books to cover such payment.

NO corporate action is being proposed or submitted in the Meeting that may call for the exercise of a stockholder’s right of appraisal.

Item 3. Interest or Opposition of Certain Persons in Matters to be Acted Upon

- (a) At any time since the beginning of the last fiscal year, **NO** director, officer, nominee for election as director, or associate of such director, officer or nominee has any substantial interest, direct or indirect, by security holdings or otherwise, in any of the matters to be acted upon in the Meeting, other than election to office.

- (b) As of the date this Information Statement is given to stockholders of record, **NO** director of the Company has informed the Company in writing that he intends to oppose any action to be taken by the Company at the Meeting.

B. Control and Compensation Information

Item 4. Voting Securities and Principal Holders Thereof

The Company's capital stock consists of common shares only which are issued and transferable to both Philippine and non-Philippine nationals; *provided*, that the Company's common shares shall not be issued to non-Philippine nationals in excess of forty percent (40%) of the Company's outstanding capital stock.

- (a) **Record Date.** The Record Date with respect to this solicitation is **03 May 2013**. Only stockholders of record as at the close of business on 03 May 2013 are entitled to notice of, and to vote at, the Meeting.
- (b) **Outstanding Shares.** As of Record Date, the Company has an outstanding capital stock of 1,164,999,818 common shares owned by 3,120 stockholders. Each common share is entitled to one (1) vote.
- (c) **Cumulative Voting.** A stockholder entitled to vote at the Meeting shall have the right to vote in person or by proxy the number of shares registered in his name in the stock transfer book of the Company for as many persons as there are directors to be elected. Each stockholder shall have the right to cumulate said shares and give one nominee as many votes as the number of directors to be elected multiplied by the number of his shares shall equal, or he may distribute them on the same cumulative voting principle among as many nominees as he shall see fit; *provided*, that the number of votes cast by a stockholder shall not exceed the number of his shares multiplied by the number of directors to be elected.
- (d) **Stock Ownership of Certain Record and Beneficial Owners.** The following persons are known to the Company to be directly or indirectly the owner of more than 5% of the Company's voting securities as of Record Date:

<u>Title of Class</u>	<u>Name and address of record owner and relationship with Issuer</u>	<u>Name of Beneficial Owner and Relationship with Record Owner</u>	<u>Citizenship</u>	<u>No. of shares held</u>	<u>Percentage Ownership</u>

Note A: *The shares registered under the name of PCD Nominee Corporation (PCD) are beneficially owned by its participants. Based on PCD's books, there are 129 beneficial owners of the Company's voting stock of which Alakor Securities Corporation (ASC) is the record owner of more than 5% of the Company's voting securities*

Note B: *Among the clients of ASC, National Book Store, Inc. (NBSI) and Alakor Corporation (AC) are the beneficial owners of more than 5% of the Company's voting securities.*

Note C: *As a matter of practice, PCD itself does not vote the number of shares registered in its name; instead, PCD issues a general proxy constituting and appointing each of its participants as PCD's proxy to vote for the number of shares owned by such participant in PCD's books as of Record Date.*

The proxies of NBSI and AC are appointed by their Boards of Directors and the Company becomes aware of such proxies only when the appointments are received by the Company. Based on previous practice, Mr. Alfredo C. Ramos has been appointed proxy for NBSI and AC for the previous years. Mr. Ramos has direct/indirect interest/shareholdings in NBSI and AC.

(e) **Voting Trust Holders of 5% or More.** To the extent known to the Company, there is **NO** person holding more than 5% of the Company's voting stock under a voting trust or similar agreement.

(f) **Stock Ownership of Management.** The Company's directors (D), Chief Executive Officer (CEO), other officers (O) and nominees (N) own the following number of shares:

Directors elected in the Annual Stockholders' Meeting have a term of office of one (1) year and serve as such until their successors are elected in the next succeeding Annual Stockholders' Meeting; *provided*, that a director elected to fill a vacancy in the Board shall only serve the unexpired term of his predecessor.

The Company's Nomination Committee is headed by Mr. Renato C. Valencia, Chairman, and the members are Messrs. Alfredo C. Ramos and Christopher M. Gotanco, with Ms. Iluminada P. Rodriguez (in her capacity as VP-Finance and Administration, as non-voting member).

All the Company's incumbent directors were elected in the 2012 Annual Stockholders' Meeting held on 27 July 2012 and have since served in such capacity.

There are **NO** arrangements that may result in a change in control of the Company.

Independent Directors. Pursuant to Securities Regulation Code (SRC) Sec. 38 and Rule 38.1, the Company is required to have at least two (2) independent directors. The Company's incumbent independent directors are Messrs. Renato C. Valencia and Ramoncito Z. Abad.

The Company's Amended By-Laws incorporating the provisions of SRC Rule 38 were approved by the Securities and Exchange Commission on September 14, 2006.

In line with the guidelines set by the Nomination Committee and approved by the Board of Directors, the Nomination Committee receives the names of nominees and screens

them based on the policies and parameters for screening nominees for independent directorship. The final list of candidates, with the information required under Part IV(A) and (C) of Annex C of SRC Rule 12, is herewith attached. Mr. Noel T. Del Castillo nominated Mr. Renato C. Valencia, while Mr. Victor V. Benavidez nominated Mr. Ramoncito Z. Abad for election as independent directors of the Company for fiscal year 2013. Messrs. Del Castillo and Benavidez are not related to either or both Messrs. Valencia and Abad. Neither Mr. Del Castillo nor Mr. Benavidez has any business relationship to either or both Messrs. Valencia and Abad.

Messrs. Valencia and Abad possess the qualifications and none of the disqualifications of an independent director.

Significant Employees. Other than its executive officers, the Company has not engaged the services of any person who is expected to make significant contributions to the business of the Company. The Company is not dependent on the services of certain key personnel and there are no arrangements to ensure that these persons will remain with the Company and not compete upon termination.

Family Relationships. Mr. Alfredo C. Ramos (Chairman of the Board) is the husband of Ms. Presentacion S. Ramos (Director), brother of Ms. Cecilia R. Licauco (Director), and brother-in-law of Atty. Augusto B. Sunico (Director). Messrs. Adrian S. Ramos (Director) and Anton S. Ramos (Director) are the sons of Mr. Alfredo C. Ramos and Ms. Presentacion S. Ramos.

Involvement in Certain Legal Proceedings. For the past five (5) years up to the date this Information Statement is sent to stockholders, the Company is not aware of:

- (1) Any bankruptcy petition filed by or against any business of which any director, nominee for election as director, executive officer, underwriter or control person of the Company was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;

- (2) Any conviction by final judgment, including the nature of the offense, in a criminal proceeding, domestic or foreign, or being subject to a pending criminal proceeding, domestic or foreign, excluding traffic violations and other minor offenses involving any director, nominee for election as director, executive officer, underwriter or control person of the Company;
- (3) Of any director, nominee for election as director, executive officer, underwriter or control person of the Company being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities; and,
- (4) Of any director, nominee for election as director, executive officer, underwriter or control person of the Company being found by a domestic or foreign court of competent jurisdiction (in a civil action), the Commission or comparable foreign body, or a domestic or foreign Exchange or other organized trading market or self regulatory organization, to have violated a securities or commodities law or regulation, and the judgment has not been reversed, suspended, or vacated.

Related Party Transactions. There had been **NO** transaction during the last two years to which the Company was or is to be a party in which any director or executive officer of the Company, or nominee for election as director, or owner of more than 10% of the Company's voting stock, or voting trust holder of 10% or more of the Company's shares, or any member of the immediate family (including spouse, parents, children, siblings, and in-laws) of any of these persons, had or is to have a direct or indirect material interest.

In the ordinary and regular course of business, the Company had transactions with related parties (i.e. companies with shareholders common with the Company) which principally consist of advances TO related parties and loans/advances FROM related parties. The identities of these related parties, including the amounts and details of the transactions are disclosed in Note 17 of the Company's 2012 Audited Financial Statements, a copy of which is included in this Information Statement.

- (1) Business purpose of the arrangement. The business purpose of related party transactions is to address immediate working capital requirements of related parties (in the case of advances TO related parties) or of the Company (in the case of loans/advances FROM related parties).
- (2) Identification of the related parties' transaction business with the registrant and nature of the relationship. See Note 17 of the Company's 2012 Audited Financial Statements.
- (3) How transaction prices were determined by parties. All transactions with related parties are based on prevailing market/commercial rates at the time of the transaction.
- (4) If disclosures represent that transactions have been evaluated for fairness, a description of how the evaluation was made. There are **NO** disclosures representing that the transactions with related parties have been evaluated for fairness inasmuch as the bases of all transactions with related parties were the

prevailing market/commercial rates at the time of the transaction over which neither the Company nor the related parties have any control or influence whatsoever.

(5) Any on-going contractual or other commitments as a result of the arrangement. **NONE**, other than the repayment of money lent or advanced.

(6) There were **NO** transactions with parties that fall outside the definition of "related parties" under SFAS/IAS No. 24. Neither were there any transactions with persons with whom the Company or its related parties have a relationship that enabled the parties to negotiate terms of material transaction that may not be available from other, more clearly independent parties on an arms' length basis.

Parent of the Company. **NO** person holds more than 50% of the Company's voting stock, and the Company has **NO** parent company.

(b) **Resignation or Declination to Stand for Re-Election.** **NO** director elected in the 2012 Annual Stockholders' Meeting has resigned or declined to stand for re-election to the Board of Directors.

Item 6. Compensation of Directors and Executive Officers

The aggregate compensation paid to the Company's Chief Executive Officer and other three (3) most highly compensated executive and non-executive officers named below as a group for the two most recently completed fiscal years (2012 and 2011) and the ensuing fiscal year (2013) are:

**The Company only employs a CEO and three (3) salaried officers*

For the year 2011 and 2012, directors and executive officers were paid the 13th month pay and corresponding bonuses.

For the most recently completed fiscal year and the ensuing fiscal year, directors received and will receive a per diem of ₱5,000 per month to defray their expenses in attending board meetings. There are no other arrangements for compensation of directors, as such, during the last fiscal year and for the ensuing fiscal year.

The Company maintains standard employment contracts with Messrs. Alfredo C. Ramos and Christopher M. Gotanco, both of which provide for their respective compensation and benefits, including entitlement to health benefits, representation expenses and Company car plan. Other than what is provided under applicable labor laws, there are no compensatory plans or arrangements with executive officers entitling them to receive more than P2,500,000 as a result

of their resignation or any other termination of employment, or from a change in control of the Company, or a change in the executive officers' responsibilities following a change in control of the Company.

The Company maintains a retirement plan pursuant to which an eligible employee will receive one month's pay for every year of service for the first 10 years and two month's pay for every year of service beyond 10 years. Based on this policy, the retirement pay of some officers of the Company may exceed P2,500,000.

There are no warrants or options outstanding in favor of directors and officers of the Company.

Item 7. Independent Public Accountants

The auditing firm of Sycip Gorres Velayo and Co. (SGV), with address at 6760 Ayala Avenue, 1226 Makati City, was appointed external auditor of the Company in the 2012, 2011 and 2010 Annual Stockholders' Meetings with Mr. John T. Villa as the partner-in-charge from 2009 to 2012.

For 2013, SGV is recommended to stockholders for appointment as independent external auditor of the Company.

The fees of the external auditor in the past three (3) years are as follows:

<u>Year</u>	<u>Audit & Audit Related Fees</u>	<u>Tax Fees</u>	<u>Other Fees</u>
2010	P412,870.00	P49,544.42	0
2011	P434,580.00	P52,149.60	0
2012	P488,157.90	P58,576.96	0

For the past three (3) years, the Company has engaged the services of the SGV for the audit and review of the annual financial statements in connection with statutory and regulatory filings for the years 2010, 2011 and 2012. The amounts under the caption "*Audit & Audit Related Fees*" for the years 2010, 2011 and 2012 pertain to these services. The Audit Committee has an existing policy prohibiting the Company from engaging the external auditor to provide services that may adversely impact its independence, including those expressly prohibited by regulations of the Securities & Exchange Commission (SEC).

SGV representatives are expected to be present at the Meeting and they will have the opportunity to make a statement and respond to appropriate questions.

SGV became the independent auditor of the Company in 2009 with Mr. John T. Villa as the partner-in-charge. Previously, KPMG Manabat Sanagustin & Co. was the Company's independent external auditor for the past ten (10) years up to 2008, with Mr. Ricardo G. Manabat as the partner-in-charge for 2008.

The Company **NEVER** had any disagreement with its auditors, SGV and KPMG Manabat Sanagustin & Co., nor with Mr. Villa and Mr. Manabat, on any matter of accounting principles or practices, financial statement disclosures or auditing scope or procedures and the Company did not engage any new independent external auditor, either as principal accountant to audit the Company's financial statements or as an independent accountant on whom the principal accountant has expressed or is expected to express reliance in its report regarding a significant subsidiary, during the two most recent fiscal years or any subsequent interim period.

NO independent accountant engaged by the Company as principal accountant, or an independent accountant on whom the principal accountant expressed reliance in its report regarding a significant subsidiary, has resigned, or has declined to stand for re-election after completion of the current audit, or was dismissed. The auditor's representatives are expected to be present at the Meeting and will have the opportunity to make a statement and respond to appropriate questions.

The Company's audit committee is headed by Mr. Renato C. Valencia, as Chairman, and the members are Messrs. Ramoncito Z. Abad, Adrian S. Ramos and Francisco A. Navarro. The Audit Committee reviews and recommends to the Board and the stockholders the appointment of the external auditor and the fixing of the audit fees for the Company.

Item 8. Compensation Plans

NO action is to be taken with respect to any plan pursuant to which cash or non-cash compensation may be paid or distributed.

C. Issuance and Exchange of Securities

 4. Authorizing the Company to sell the 12.25 Million shares of Vulcan Industrial & Mining Corporation to National Book Store Inc. (29 October 2012);
 5. Authorizing the Company to purchase 1,429,962 shares of Vulcan Materials Corporation from Vulcan Industrial & Mining Corporation (18 December 2012);
 6. Authorizing the Company to declare cash dividend equivalent to P0.03 per share to stockholders of record as of April 05, 2013 and payable on May 03, 2013 (19 March 2013);
 7. Authorizing the setting of the Annual Stockholders Meeting on July 26, 2013 and setting the record date on May 03, 2012 (19 March 2013);
 9. Authorizing the Company to designate CHRISTOPHER M. GOTANCO, as the proxy of the Company to the Annual Stockholders' Meeting of Atlas Consolidated Mining and Development Corporation to be held on 24 April 2013 (19 March 2013);
 10. Approving the Company's audited financial statements for the year ended 2012 (11 April 2013).
- (d) Appointment of Sycip, Gorres Velayo and Company as the Company's independent external auditor for 2013.

Item 16. Matters Not Required to be Submitted

Proofs of transmittal to stockholders of the required Notice for the Meeting and of the presence of a quorum at the Meeting form part of the Agenda for the Meeting and will not be submitted for approval by the stockholders.

Item 17. Amendment of Articles of Incorporation and By-Laws

NO amendment to the Company's articles of incorporation or by-laws is being proposed at the Meeting.

Item 18. **Other Proposed Action**

NO action on any matter, other than those stated in the Agenda for the Meeting, is proposed to be taken, except matters of incidence that may properly come at the Meeting.

Item 19. **Voting Procedures**

- (a) In the election of directors, the eleven (11) nominees with the greatest number of votes will be elected directors.
- (b) If the number of nominees for election as directors does not exceed the number of directors to be elected, the Secretary of the Meeting shall be instructed to cast all votes represented at the Meeting equally in favor of all such nominees. However, if the number of nominees for election as directors exceeds the number of directors to be elected, voting shall be done by ballot, cumulative voting will be followed, and counting of votes shall be done by two (2) election inspectors appointed by the stockholders present or represented by proxy at the Meeting.

In accordance with SRC Sec. 38 and SRC Rule 38, only nominees whose names appear in the Final List of Candidates for Independent Directors shall be eligible for election as Independent Directors. No other nomination shall be entertained after the Final List of Candidates shall have been prepared and no further nomination shall be entertained or allowed on the floor during the actual annual stockholders' meeting.

Messrs. Renato C. Valencia and Ramoncito Z. Abad are nominated for election as independent directors of the Company for fiscal year 2013.

- (c) For corporate matters that will be submitted for approval and for such other matters as may properly come at the Meeting, a vote of the majority of the shares present or represented by proxy at the Meeting is necessary for their approval. Voting shall be done *viva voce* or by the raising of hands and the votes for or against the matter submitted shall be tallied by the Secretary.

(1) Financial Condition, Changes in Financial Condition and Results of Operations

Financial highlights for the years 2012, 2011 and 2010 are presented below:

	2012	2011	2010
Revenues	545,478,100	467,374,212	689,489,995
Net income	382,920,830	290,695,947	560,774,028
Total assets	5,446,149,894	4,844,580,763	5,172,806,310
Total Liabilities	1,951,739,734	1,982,240,071	2,398,233,254
Net worth	3,494,410,160	2,862,340,692	2,774,573,056
Issued & subscribed capital	1,164,999,818	1,165,000,000	1,165,000,000

Changes in Financial Condition (2010-2012)

Revenues decreased from 2010 to 2011 due to: (i) decrease in interest income as a result of the payment of the US\$11.5 Million loan by Atlas Consolidated Mining & Dev. Corp. (AT) in 2010, and (ii) discount on Long Term Debt arising from the renewal of the Euronote Profits Limited (EPL) loan. On the other hand, Revenues increased from 2011 to 2012 due to increase in gains on fair value changes of financial assets at FVPL as a result of continuing increase in the market prices of Shang Properties, Inc. (SHNG) and The Philodrill Corporation (OV) shares.

Net Income declined from P560.8 million in 2010 to P290.7 million in 2011 due to lower revenues generated by the Company in 2011, while Net Income increased from P290.7 in 2011 to P382.9 in 2012 due to increase in gains on fair value changes of financial assets at FVPL because of higher market prices of SHNG and OV shares in 2012.

Total Assets decreased from P5.2 billion in 2010 to P4.8 billion in 2011 due to: (i) decrease in market value of AT shares, (ii) decrease in Cash and Cash Equivalents due to payment of loan to EPL; and, (iii) decrease in Investment in Associates due to the sale of 9.9 billion United Paragon Mining Corp. (UPM) shares in 2011. On the other hand, Total Assets increased from P4.8 billion in 2011 to P5.4 billion in 2012 due to increase in the value of financial assets through FVPL arising from higher market prices of SHNG and OV shares and increase in AFS investments arising from higher market price of AT shares.

Total Liabilities decreased from P2.4 billion in 2010 to P1.98 billion in 2011 to P1.95 billion in 2012 due to payment of loans to Land Bank of the Philippines (LBP) and EPL

The Company's Net Worth continuously increased from P2.8 billion in 2010 to P2.9 billion in 2011 to P3.5 billion in 2012 mainly due to corresponding increases in Net Income and Unrealized Valuation Gain on AFS investments generated by the Company from 2010 to 2012.

Results of Operations - Full Year

Natural Resources

On December 18, 2012, the Company acquired 100% ownership of **Vulcan Materials Corporation** (VMC), a company engaged in the exploration and development of mineral and aggregates resources. VMC posted a net loss of P24.16 million in 2012.

The Company owns 21.81% of **United Paragon Mining Corporation** (UPM), which posted a net loss of P93.5 million in 2012.

As of December 31, 2012, the Company owns 8.27% of **Atlas Consolidated Mining & Development Corporation** (AT) which posted a net income of P3.4 billion in 2012. AT has two (2) significant subsidiaries, namely: (a) *Berong Nickel Corporation*, which shipped a total of 777,366 wmt of nickel laterite ore and posted a net income of P196.3 million in 2012, and (b) *Carmen Copper Corporation*, which shipped 154,808.65 dmt of copper concentrate at an average of 26.91% Cu and posted a net income of P3.3 billion in 2012.

Pending the transfer of its petroleum assets, the Company continues to participate in the following ***Oil Exploration*** contracts:

Service Contract 6A	Octon, NW Palawan	3.33000 %
Service Contract 14D	Tara, NW Palawan	2.50000 %
Service Contract 41	Sulu Sea	1.67900 %
Service Contract 53	Onshore Mindoro	5.00000 %
SWAN Block	NW Palawan	33.57800 %

SC 6A (Octon) – the operator, Pitkin Petroleum completed the seismic re-interpretation of the northern block and, based on the results thereof, the consortium approved a budget of US\$4.46 million for 2013 which includes a new 3D seismic acquisition over the block by the first semester of 2013.

SC 14 (Tara) – The farming-out members of the consortium advised the farminees – Peak Oil, Blade Petroleum and Venturoil – of their decision to terminate the farm-in agreement due to failure by the farminees to obtain approval of their farm-in from the DOE even after the lapse of one (1) year. Peak indicated its desire to discuss the matter further with the farming-out parties.

Areas 15 (Sulu Sea) – This area covers the old SC 41 block. The DOE will reportedly re-bid the area as no winners in the 4th Philippine Energy Contracting Round (PECR 4) bidding were endorsed for approval. Anglo has an option to acquire a portion of Philodrill's interest in Area 15 in the event that the area is awarded to bidders, Philodrill and Philex.

SC 53 (Mindoro) – preparations are now being made for the planned drilling of Progreso-2 well around August 2013. Pitkin is currently undertaking an IEC campaign and obtaining all necessary permits and clearances for the undertaking.

SWAN Block - The consortium awaits PNOC-EC's evaluation of the merits of the offer to swap a portion of the consortium's interest in some blocks in exchange for interests in SC-57 and SC-58, which cover the old SWAN block.

Aside from direct participation in various oil exploration contracts, the Company also owns 1.68% of **The Philodrill Corporation** (OV), a publicly listed company engaged in oil exploration and production. Philodrill posted a consolidated net income of P275.5 million in 2012 and gave the Company a total of P3.2 million in cash dividends in 2012.

Property Development

The Company owns 15.79% of **North Triangle Depot Commercial Corporation** (NTDCC) which posted an audited net income of P351.71 million for 2012 and paid the Company a total of P41.54 million in cash dividends and P31.58 million in redemption of preferred shares.

The Company continues to maintain a 15.79% interest in **MRT Development Corp.** (MRTDC), which generates revenues from concessionaire rentals and advertising fees in the MRT stations. Plans to develop the perimeter lot pads in the MRT depot are being finalized by Ayala Land Inc. and Fil-Estate/Global Estate Resorts, Inc.

The Company owns 4.5% of **Shang Properties, Inc.** (SHNG). For 2012, SHNG posted a consolidated net income of P1.9 billion for 2012. The Company received a total of P17.6 million in cash dividends from SHNG in 2012.

Infrastructure

The Company continues to maintain 18.6% equity in **MRT Holdings, Inc.**, the indirect majority owner of the Metro Rail Transit Corporation. As of end-2012, average ridership stood at about 530,000 passengers per day.

Other Investments

The Company has minority investment in *Brightnote Assets Corporation*, a holding company organized for the purpose of investing in the Calabarzon area.

Filipinas Energy Corporation (FEC) has not undertaken any business operation since its incorporation due to the deferment of the transfer of the Company's oil and mineral assets.

NO bankruptcy, receivership or similar proceeding has been filed by or against the Company and/or its subsidiary during the last three (3) years.

NO material reclassification, merger, consolidation, or purchase/sale of a significant amount of assets, not in the ordinary course of business, has been undertaken by the Company and/or its subsidiary during the last three (3) years.

The top key performance indicators of the Company and its majority-owned subsidiary are as follows:

	<u>December 31, 2012</u>	<u>December 31, 2011</u>	<u>December 31, 2010</u>

Average Number of shares outstanding	1,164,999,818	1,165,000,000	1,165,000,000

Current Ratio increased in 2012 compared to 2011 due to increase in Current Assets as a result of the increase in the market value of SHNG and OV shares. On the other hand, Current Ratio decreased in 2011 compared to 2010 due to a decrease in Current Assets, as the Company was able to collect its interest receivable from AT, and also because of an increase in Current Liabilities due to a corresponding increase in the Current Portion of Long Term-Debt.

Asset-to-equity ratio is slightly lower in 2012 compared to 2011, but showed a significant decline from 2010 to 2011 due to the decrease in Total Assets year-on-year resulting from a corresponding decrease in the value of AFS investment (due to decline in the market value of AT shares) and decrease in Investment in Associates (due to the sale of 9.9 billion UPM shares).

Debt-to-Equity Ratio continuously decreased from 2010 to 2012 due to increases in Stockholders' Equity arising from the net income generated by the Company and unrealized valuation gain on AFS investments recognized from 2010 to 2012. Conversely, Equity-to-Debt ratio increased from 2010 to 2012.

Book Value per Share (BVPS) increased from 2010 to 2012 due to the increase in Stockholders Equity arising from the rebound in the market price of AT resulting in a higher net unrealized gains in AFS investments and the consistent positive net income from 2010 to 2012.

Earnings Per Share (EPS) increased from 2011 to 2012 due to increase in net income as a result of increase in gains on fair value changes of financial assets at FPVL, but decreased from 2010 to 2011 due to a lower net income posted in 2011.

(2) Yearend Results

For the year ended 2012, the Company posted a Net Income of P382.9 million compared to a net income of P290.7 million in 2011.

(3) Future Prospects

The Company remains optimistic on its future prospects on account of: (i) the renewed vigor in the natural resources-based sector, with new oil wells to be drilled in 2013 and Atlas increasing production in Berong and Carmen; and, (ii) a strong property development portfolio, with NTDCC's growing Trinoma operations and SHNG's strong condominium sales/rentals and commencement of new high-rise developments.

(b) Interim Periods

(1) Financial Condition, Changes in Financial Condition and Results of Operation

Comparative financial highlights for the 1st quarters of fiscal years 2013 and 2012 are presented below:

	<u>31 March 2013</u>	<u>31 March 2012</u>
Revenues	155,303,148	233,286,322
Net Income	135,038,012	214,445,549
Total Assets	6,226,244,232	5,245,064,968
Total Liabilities	1,953,406,685	1,979,683,174
Net Worth	4,272,837,546	3,265,381,794
Issued and Outstanding Capital	1,164,999,818	1,165,000,000

Changes in Financial Condition – 1st Quarter 2013 vs. 1st Quarter 2012

The Company posted revenues of P155.3 million for the first quarter of 2013 compared to P233.3 period in 2012 as the market prices of OV and SHNG shares were much higher during the first

quarter of 2012 compared to the same period in 2013. The Company posted a net income of P135 million during the first quarter of 2013 compared to P214.4million in 2012.

Total Assets increased from P5.2 billion as of end-March 2012 to P6.2 billion as of end-March 2013 due to: (i) increase in Financial Assets at FVPL resulting from the increase in the market value of OV and SHNG shares, (ii) increase in Available for Sale (AFS) Investment arising from the increase in market value of AT shares, and (iii) the consolidation of the financial statements of subsidiary VMC.

Total Liabilities is lower at P1.95 billion as of end-March 2013, compared to P1.98 billion as of end-March 2012, due to partial payment of the Company's loan with EPL.

Net Worth is higher at P4.3 Billion as of the end-March 2013, compared to P3.3 Billion as of the end-March 2012, due to the net income generated by the Company and the increase in the market price of AT shares resulting in a higher net unrealized valuation gain on AFS investment.

Changes in Financial Condition – 1st Quarter 2013 vs. Full Year 2012

Comparative financial highlights for the 1st quarter, 2013 and yearend 2012 are presented below:

Pending the transfer of its petroleum assets, the Company continues to participate in the following ***Oil Exploration*** contracts:

Service Contract 6A	Octon, NW Palawan	3.33000 %
Service Contract 14D	Tara, NW Palawan	2.50000 %
Service Contract 41	Sulu Sea	1.67900 %
Service Contract 53	Onshore Mindoro	5.00000 %
SWAN Block	NW Palawan	33.57800 %

SC 6A (Octon) – the operator, Pitkin Petroleum completed the seismic re-interpretation of the northern block and, based on the results thereof, the consortium approved a budget of US\$4.46 million for 2013 which includes a new 3D seismic acquisition over the block by the first semester of 2013.

SC 14 (Tara) – The farming-out members of the consortium advised the farminees – Peak Oil, Blade Petroleum and Venturoil – of their decision to terminate the farm-in agreement due to failure by the farminees to obtain approval of their farm-in from the DOE even after the lapse of one (1) year. Peak indicated its desire to discuss the matter further with the farming-out parties.

Area 15 (Sulu Sea) – This area covers the old SC 41 block. The DOE will reportedly re-bid the area as no winners in the 4th Philippine Energy Contracting Round (PECR 4) bidding were endorsed for approval. Anglo has an option to acquire a portion of Philodrill's interest in Area 15 in the event that the area is awarded to bidders, Philodrill and Philex.

SC 53 (Mindoro) – preparations are now being made for the planned drilling of Progreso-2 well around August 2013. Pitkin is currently undertaking an IEC campaign and obtaining all necessary permits and clearances for the undertaking.

SWAN Block - The consortium awaits PNOC-EC's evaluation of the merits of the offer to swap a portion of the consortium's interest in some blocks in exchange for interests in SC-57 and SC-58, which cover the old SWAN block.

Aside from direct participation in various oil exploration contracts, the Company also owns 1.68% of **The Philodrill Corporation** (OV), a publicly listed company engaged in oil exploration and production. Philodrill posted a consolidated net income of P67.9 million in as of end-March 2013.

Discussion and Analysis of Material Events and Uncertainties

Except as discussed below, Management is not aware of any material event or uncertainty that has affected the current interim period and/or would have a material impact on future operations of the Company.

The Company will continue to be affected by the Philippine business environment as may be influenced by any local/regional financial and political crises.

1. There are **NO** known trends, demands, commitments, events or uncertainties that have or are reasonably likely to have a material impact on the Company's short-term or long-term liquidity.
2. The Company's internal source of liquidity comes, primarily, from revenues generated from operations. The Company's external source of liquidity comes, primarily, from loans/financing obtained from financial institutions and, alternatively, may also come from the collection of its accounts receivables.
3. The Company has **NO** material commitments for capital expenditures but is expected to contribute its equity share in the capital expenditures of its investee companies. However, the bulk of the funding for such expenditures will be sourced from project financing.

4. There are **NO** known trends, events or uncertainties that have had or are reasonably expected to have a material impact on the revenues or income from continuing operations, save as stated in paragraph 1 above.
5. There are **NO** significant elements of income or loss that did not arise from the Company's continuing operations.
6. There have been **NO** material changes from 2010-2012 in one or more line items of the Company's financial statements, EXCEPT as disclosed below:
 - a. Net Revenues increased from 2011 to 2012 due to increase in gains on fair value changes of financial assets at FVPL as a result of continuing increase in the market value of SHNG and OV shares. On the other hand, Net Revenues decreased from 2010 to 2011 due to: (i) decrease in interest income as a result of payment of US\$11.5 Million loan of AT in 2010, and (ii) the absence of gains on mark-to-market changes in derivative assets. The Increase in Gains on sale of investment from 2010 to 2011 was due to the sale of the Company's 9.9 billion UPM shares. Also, Discount on Long Term Debt increased due to renewal of the EPL loan.
 - b. Cost and Expenses are higher in 2011 compared to 2012 and 2010 due to higher general and administrative expenses in 2011.
 - c. Income Before Income Tax increased in 2012 due to higher revenues and lower cost compared to 2011. On the other hand, Income Before Income Tax is higher at P564.8 million in 2010 against P322.9 million in 2011 due to higher Net Revenues generated by the Company in 2011.
 - d. Basic and Diluted Earnings Per Share increased from P0.25 in 2011 to P0.33 in 2012 due to the higher Net Income generated by the Company in 2012. The Basic and Diluted Earnings per share in 2010 was higher than 2011 due to the higher Net Income generated in 2010.
 - e. Retained Earnings increased from P658.2 million in 2010 to P855.7 million in 2011 to P1.17 billion in 2012 due to the net income generated by the Company in 2010, 2011 and 2012.
 - f. Current Assets increased from P810.06 million in 2011 to P1.03 billion in 2012 due to increased financial assets at fair value through profit and loss because of the higher market value of SHNG and OV shares. On the other hand, the decrease in Current Assets from P912.6 million in 2010 to P810 million in 2011 was mainly due to decrease in Cash and Cash Equivalents due to payment of the Company's loans to LBP and EPL.
 - g. Non-Current Assets increased from P4.03 billion in 2011 to P4.4 billion in 2012 due to (i) increase in AFS investment as a result of higher market value of AT shares; and, (ii) increase in property and equipment, deferred exploration costs, and other noncurrent assets as a result of the consolidation of its subsidiary, VMC. On the other hand, Non-Current Assets decreased

from P4.3 billion in 2010 to P4.03 billion in 2011 due to decrease in the value of AFS investment as a result of the decline in the market value of AT shares. Non-Current Assets is P4.3 billion in 2010 due to the additional shares of AT acquired by the Company from the conversion of AT's US\$11.5 million loan into AT shares coupled with an increase in market value of AT shares. Investment in Associates account decreased due to the redemption by NTDCC of a portion of preferred shares held by the Company.

- h. Current Liabilities decreased from P882 million in 2011 to P797 million in 2012 due to payment of the Company's loans with LBP and EPL. On the other hand, Current Liabilities increased from P829 million in 2010 to P882.4 million in 2011 due to recognition of the Current Portion of Long Term Debt which matured in June 2011. Accounts Payable increased in 2012 as compared to 2011 as a result of the consolidation of subsidiary, VMC.
- i. Non-Current Liabilities increased from P1.1 billion in 2011 to P1.2 billion in 2012 due to: (i) assumption of unearned revenues, decommissioning liability and retirement benefit liability of subsidiary, VMC; and, (ii) increase in deferred income tax liability. On the other hand, Non-Current Liabilities decreased from P1.6 billion in 2010 to P1.1 billion in 2011 due to reclassification of Current Portion of Long Term Debt with maturities in June 2010 and June 2011.
- j. Stockholders' Equity continuously increased from P2.9 billion in 2010 to P2.9 billion in 2011 and to P3.5 billion in 2012 mainly due to increase in Net Income and the unrealized valuation gain on AFS investments generated by the Company in 2010, 2011 and 2012.

7. There have been **NO** material changes from 31 March 2012 to 31 March 2013 in one or more line items of the Company's financial statements, EXCEPT as disclosed below:

- (a) Cash and Cash Equivalents decreased from P117.9 million as of end-March 2012 to P33.3 million as of end-March 2013 due to partial payment of the Company's loan with EPL.
- (b) Financial Assets at Fair Value through FVPL increased due to the increase in market value of SHNG and OV shares.
- (c) Accounts Receivable increased from P202.2 million as of end-March 2012 to P256 million as of end-March 2013 due to: (i) accrual of consultancy fees from EPL for the first quarter 2013, and (ii) accrual of interest receivable from affiliate company.
- (d) The value of AFS investments increased from P3.1 billion as of end-March 2012 to P3.9 as of end-March 2013 billion due to increase in the market value of AT shares as of end-March 2013.
- (e) Investment in Associates decreased from P922.3 million as of end-March 2012 to P897.5 million as of end-March 2013 due to redemption of NTDCC preferred shares.

- (f) Property and Equipment and Deferred Exploration Cost increased due to consolidation of subsidiary's own Property and Equipment and Deferred Exploration Cost into the Company's financial statements.
 - (g) Short Term Loans payable is attributable to subsidiary's loan with Metrobank.
 - (h) Current Portion of Long Term Debt decreased due to partial payment of the Company's loan with EPL.
 - (i) Accounts Payable increased from P220.2 million as of end-March 2012 to P270.9 million as of end-March 2013 due to: (i) increase in accrued interest payable to EPL and OV; and, (ii) consolidation of subsidiary's accounts payable to the Company.
 - (j) Income Tax Payable decreased from P14 million as of end-March 2012 to P6 million as of end March 2013 due to decrease in the Company's income tax payable as of end 2012.
 - (k) Net Unrealized Valuation Gain on AFS investments increased due to increase in the market value of AT shares.
 - (l) Retained Earnings increased due to the net income generated by the Company.
 - (m) Stockholders' equity increased due to the net income generated by the Company. and the increase in the market price of AT shares resulting in a higher Net Unrealized Valuation Gain on AFS investment.
8. There have been **NO** material changes from 31 December 2012 to 31 March 2013 in one or more line items of the Company's financial statements, EXCEPT as disclosed below:
- (a) Cash and Cash Equivalents decreased from P38.8 million as of end-2012 to P33.3 million as of end-March 2012 due to partial payment of the Company's loan with EPL.
 - (b) Financial Assets at Fair Value through FVPL increased due to the increase in market value of SHNG and OV shares.
 - (c) Accounts Receivable increased from P224 million as of end-2012 to P256 million as of end-March 2012 due to: (i) accrual of consultancy fees from EPL for the first quarter 2013; and, (ii) accrual of interest receivable from affiliate company.
 - (d) The value of AFS investments increased from P3.2 billion to P3.9 billion due to increase in the market value of AT shares as of end-March 2013.
 - (e) Short Term Loans payable decreased from P3.1 million as of end-2012 to P1.6 million as of end-March 2012 due to payment of subsidiary's loan with Metrobank.
 - (f) Accounts Payable increased from P257 million as of end-2012 to P271 million as of end-March 2013 due to: (i) increase in accrued interest payable to EPL and OV; and, (ii) increase in the accounts payable of subsidiary.
 - (g) Income Tax Payable increased from P1.5 million as of end-2012 to P6.1 million as of end-March 2013 due to booking of income tax payable for the 1st quarter 2013.

- (h) Net Unrealized Valuation Gain on AFS investments increased due to increase in the market value of AT shares.
 - (i) Retained Earnings increased due to the net income generated by the Company and the increase in the market price of AT shares resulting in a higher Net Unrealized Valuation Gain on AFS investment.

INDEPENDENT AUDITORS' REPORT

The Stockholders and the Board of Directors
Anglo Philippine Holdings Corporation and Subsidiary

We have audited the accompanying consolidated financial statements of Anglo Philippine Holdings Corporation (the Company) and Subsidiary, which comprise the consolidated balance sheet as at December 31, 2012, and the consolidated statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended and the financial statements of the Company, which comprise the balance sheet as at December 31, 2011 and the statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the two years in the period ended December 31, 2011, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Anglo Philippine Holdings Corporation and Subsidiary as at December 31, 2012, and their financial performance and their cash flows for the year then ended, and the financial position of Anglo Philippine Holdings Corporation as at December 31, 2011, and its financial performance and its cash flows for each of the two years in the period ended December 31, 2011 in accordance with Philippine Financial Reporting Standards.

ANGLO PHILIPPINE HOLDINGS CORPORATION AND SUBSIDIARY

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

Anglo Philippine Holdings Corporation (APHC or “the Parent Company”) was registered with the Philippine Securities and Exchange Commission (SEC) on June 25, 1958 originally as an oil and mineral exploration company with the corporate name of “Anglo Philippine Oil Corp.” In 1996, the Parent Company changed its primary purpose to that of an investments holding firm focused on natural resources-based companies, infrastructure and property development. The Parent Company is a public company under Section 17.2 of the Securities Regulation Code and its shares are listed on the Philippine Stock Exchange (PSE).

On December 18, 2012, the Parent Company acquired 100% interest in Vulcan Materials Corporation (VMC). VMC was registered with the Philippine SEC on September 12, 1991 and is involved in mining exploration and sale of aggregates. The Parent Company and its wholly owned subsidiary VMC (“the Subsidiary”), collectively referred to as “the Group”, were incorporated in the Philippines.

The registered office address of the Parent Company is 6th Floor, Quad Alpha Centrum, 125 Pioneer Street, Mandaluyong City.

The accompanying financial statements as of December 31, 2012 and 2011 and for each of the three years in the period ended December 31, 2012, were authorized for issue by the Board of Directors (BOD) on April 11, 2013.

2. Summary of Significant Accounting Policies

Basis of Preparation

The accompanying financial statements have been prepared under the historical cost basis except for financial assets at fair value through profit or loss (FVPL) and certain available-for-sale (AFS) investments which are all carried at fair value. The financial statements are presented in Philippine peso (₱), which is the Parent Company’s functional currency. All values are rounded off to the nearest ₱ except when otherwise indicated. The financial statements for 2011 represents the Parent Company’s financial statements only since the subsidiary was only acquired in December 2012.

Statement of Compliance

The accompanying financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for 2012 Consolidation

The financial statements for 2012 comprise the financial statements of Anglo Philippine Holdings Corporation and its Subsidiary as of and for the year ended December 31, 2012. Subsidiary is fully consolidated from the date of acquisition, being the date which the Parent Company obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiary is prepared for the same reporting year as those of the Parent Company, using consistent accounting policies.

All intra-company balances and transactions, including income, expenses, unrealized gains and losses and dividends, are eliminated in full. Profits and losses resulting from intra-company transactions that are recognized in assets and liabilities are eliminated in full.

Changes in Accounting Policies and Disclosures

New and Amended Standards and Interpretations and Improved PFRS Adopted in Calendar Year 2012

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following new and amended standards and Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC) and improved PFRS. Unless otherwise indicated, the adoption did not have any significant impact on the financial statements of the Group.

Amendment to PFRS 7, Financial Instruments: Disclosures

The amendment requires additional disclosure about financial assets that have been transferred but not derecognized to enable the user of the Group's financial statements to understand the relationship with those assets that have not been derecognized and their associated liabilities. In addition, the amendment requires disclosures about continuing involvement in derecognized assets to enable the user to evaluate the nature of, and risks associated with, the entity's continuing involvement in those derecognized assets. The amendment is effective for annual periods on or after July 1, 2011.

Amendment to PAS 12, Income Taxes - Deferred taxes: Recovery of Underlying Assets

The amendment clarified the determination of deferred tax on investment property measured at fair value. The amendment introduces a rebuttable presumption that deferred tax on investment property measured using the fair value model in PAS 40, *Investment Property*, should be determined on the basis that its carrying amount will be recovered through sale. Furthermore, it introduces the requirement that deferred tax on non-depreciable assets that are measured using the revaluation model in PAS 16, *Property, Plant and Equipment*, always be measured on a sale basis of the asset. The amendment is effective for annual periods beginning on or after January 1, 2012.

New, Revised and Amended Standards and Interpretation Effective Subsequent to December 31, 2012

The Group will adopt the standards and interpretation enumerated below when these become effective. Except as otherwise indicated, the Group does not expect the adoption of these new, revised and amended PFRS, PAS and Philippine Interpretation from IFRIC to have significant impact on its financial statements.

Effective in 2013:

Amendment to PFRS 1, First-time Adoption of IFRS - Government Loans

Amendment to PFRS 1 requires a first-time adopter to measure government loans existing at the date of transition to PFRS with below market interest rates at fair value, with the benefit accounted for as government grant.

PFRS 7, *Financial Instruments: Disclosures - Offsetting Financial Assets and Financial Liabilities*

These amendments require an entity to disclose information about rights of set-off and related arrangements (such as collateral agreements). The new disclosures are required for all recognized financial instruments that are set off in accordance with PAS 32. These disclosures also apply to recognized financial instruments that are subject to an enforceable master netting arrangement or 'similar agreement', irrespective of whether they are set-off in accordance with PAS 32. The amendments require entities to disclose, in a tabular format unless another format is more appropriate, the following minimum quantitative information. This is presented separately for financial assets and financial liabilities recognized at the end of the reporting period:

- a) The gross amounts of those recognized financial assets and recognized financial liabilities;
- b) The amounts that are set off in accordance with the criteria in PAS 32 when determining the net amounts presented in the statement of financial position;
- c) The net amounts presented in the statement of financial position;
- d) The amounts subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in (b) above, including:
 - i. Amounts related to recognized financial instruments that do not meet some or all of the offsetting criteria in PAS 32; and
 - ii. Amounts related to financial collateral (including cash collateral); and
- e) The net amount after deducting the amounts in (d) from the amounts in (c) above.

The amendments to PFRS 7 are to be retrospectively applied for annual periods beginning on or after January 1, 2013.

PFRS 10, *Consolidated Financial Statements*

PFRS 10 replaces the portion of PAS 27 that addresses the accounting for consolidated financial statements. It also includes the issues raised in Standards Interpretation Committee (SIC) -12, *Consolidation - Special Purpose Entities*. PFRS 10 establishes a single control model that applies to all entities including special purpose entities. The changes introduced by PFRS 10 will require management to exercise significant judgment to determine which entities are controlled, and therefore, are required to be consolidated by a parent. This standard is effective for annual periods beginning on or after January 1, 2013.

PFRS 11, *Joint Arrangements*

PFRS 11 replaces PAS 31, *Interest in Joint Ventures* and SIC-13, *Jointly-controlled Entities - Non-Monetary Contributions by Venturers*. PFRS 11 removes the option to account for jointly controlled entities using proportionate consolidation. Instead, jointly controlled entities that meet the definition of a joint venture must be accounted for using the equity method. The standard becomes effective for annual periods beginning on or after January 1, 2013.

PFRS 12, *Disclosure of Interests in Other Entities*

PFRS 12 includes all of the disclosures that were previously in PAS 27 related to consolidated financial statements, as well as all of the disclosures that were previously included in PAS 31 and PAS 28, *Investments in Associates*. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. A number of new disclosures are also required. This standard is effective for annual periods beginning on or after January 1, 2013.

PFRS 13, Fair Value Measurement

PFRS 13 establishes a single source of guidance under PFRS for all fair value measurements. PFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under PFRS when fair value is required or permitted. This standard should be applied prospectively as of the beginning of the annual period in which it is initially applied. Its disclosure requirements need not be applied in comparative information provided for periods before initial application of PFRS 13. The standard becomes effective for annual periods beginning on or after January 1, 2013.

Amendment to PAS 1, Financial Statement Presentation - Presentation of Items of Other Comprehensive Income

The amendments to PAS 1 change the grouping of items presented in other comprehensive income. Items that could be reclassified (or “recycled”) to profit or loss at a future point in time (i.e., upon derecognition or settlement) would be presented separately from items that will never be reclassified. The amendment affects presentation only and has no impact on the Group’s financial position or performance. The amendment is effective for annual periods beginning on or after July 1, 2012.

Revised PAS 19, Employee Benefits

Amendments to PAS 19 range from fundamental changes such as removing the corridor mechanism and the concept of expected returns on plan assets to simple clarifications and rewording. The revised standard also requires new disclosures such as, among others, a sensitivity analysis for each significant actuarial assumption, information on asset-liability matching strategies, duration of the defined benefit obligation, and disaggregation of plan assets by nature and risk. The amendments become effective for annual periods beginning on or after January 1, 2013. Once effective, the Group has to apply the amendments retroactively to the earliest period presented.

The Group reviewed its existing employee benefits and determined that the amended standard has significant impact on its accounting for retirement benefits. The Group obtained the services of an external actuary to compute the impact to the financial statements upon adoption of the standard. The effects in Group’s financial statements are detailed below:

	As at 31 December 2012	As at 1 January 2012
Increase (decrease) in:		
<u>Balance Sheets</u>		
Deferred income tax asset	(₱71,841)	₱1,278,534
Retirement benefit plan asset	3,559,818	2,524,147
Other comprehensive income	796,201	1,174,176
Retained earnings	167,629	(2,983,245)
	<u>2012</u>	
<u>Statement of Comprehensive Income</u>		
Retirement benefit expense	(₱239,470)	
Provision for deferred income tax	71,841	
Income for the year	167,629	

VMC reviewed its existing retirement benefits and determined that the amended standard has no significant impact on its accounting for retirement benefits as a result of the retirement of all its employees effective February 14, 2013.

Revised PAS 27, *Separate Financial Statements*

As a consequence of the new PFRS 10 and PFRS 12, what remains of PAS 17 is limited to accounting for subsidiaries, jointly controlled entities and associates in separate financial statements. The amendment is effective for annual periods beginning on or after January 1, 2013.

Revised PAS 28, *Investments in Associates and Joint Ventures*

As a consequence of the new PFRS 11 and PFRS 12, PAS 28 has been renamed PAS 28, *Investments in Associates and Joint Ventures*, and describes the applications of the equity method to investments in joint ventures in addition to associates. The amendment is effective for annual periods beginning on or after January 1, 2013.

Philippine Interpretation IFRIC 20, *Stripping Costs in the Production Phase of a Surface Mine*

This interpretation applies to waste removal costs that are incurred in surface mining activity during the production phase of the mine (“production stripping costs”) and provides guidance on the recognition of production stripping costs as an asset and measurement of the stripping activity asset. This interpretation becomes effective for annual periods beginning on or after January 1, 2013.

Improvements to PFRS

The *Annual Improvements to PFRS* (2009-2011 cycle) contain non-urgent but necessary amendments to PFRS. The amendments are effective for annual periods beginning on or after January 1, 2013 and are applied retrospectively. Earlier application is permitted.

- **PFRS 1, *First-time Adoption of PFRS - Borrowing Costs***
- **PFRS 1, *First-time Adoption of PFRS - Repeated Application of PFRS 1***
- **PAS 1, *Presentation of Financial Statements - Clarification of the requirements for comparative information***
- **PAS 16, *Property, Plant and Equipment - Classification of servicing equipment***
- **PAS 32, *Financial Instruments: Presentation - Tax effect of distribution to holders of equity instruments***
- **PAS 34, *Interim Financial Reporting - Interim financial reporting and segment information for total assets and liabilities***

Effective in 2014:

PAS 32, *Financial Instruments: Presentation - Offsetting Financial Assets and Financial Liabilities*

These amendments to PAS 32 clarify the meaning of “currently has a legally enforceable right to set-off” and also clarify the application of the PAS 32 offsetting criteria to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. While the amendment is expected not to have any impact on the net assets of the Group, any changes in offsetting is expected to impact leverage ratios and regulatory capital requirements. The amendments to PAS 32 are to be retrospectively applied for annual periods beginning on or after January 1, 2014.

Effective in 2015:

PFRS 9, *Financial Instruments: Classification and Measurement*

PFRS 9 as issued reflects the first phase on the replacement of PAS 39, *Financial Instruments: Recognition and Measurement*, and applies to classification and measurement of financial assets and financial liabilities as defined in PAS 39. In subsequent phases, hedge accounting and impairment of financial assets will be addressed with the completion of this project expected on the first half of 2012.

This is effective for annual periods beginning on or after January 1, 2015.

Philippine Interpretation IFRIC 15, *Agreements for the Construction of Real Estate*

This interpretation, effective for annual periods beginning on or after January 1, 2015, covers accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors. The interpretation requires the revenue on construction of real estate be recognized only upon completion, except when such contract qualifies as construction contract to be accounted for under PAS 11, *Construction Contracts*, or involves rendering of services in which case revenue is recognized based on the stage of completion. Contracts involving provision of services with the construction materials and where the risks and reward of ownership are transferred to the buyer on a continuous basis will also be accounted for based on stage of completion. The Philippine SEC and the Financial Reporting Standards Council have deferred the effectivity of this interpretation until the final Revenue standard is issued by IASB and an evaluation of the requirements of the final Revenue standard against the practices of the Philippine real estate industry is completed.

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The following specific recognition criteria must be met before revenue is recognized:

Interest Income

Interest income from bank deposits and short-term investments are recognized as they accrue using the effective interest rate (EIR) method.

Management Fees

Management fees are recognized when services are rendered based on the contractual agreement between the parties.

Dividend Income

Dividend income is recognized when the shareholder's right to receive payment is established.

Costs and Expenses

Costs and expenses are decreases in economic benefits during the accounting period in the form of outflows or depletions of assets or incurrences of liabilities that result in decreases in equity, other than those relating to distributions to equity participants. General and administrative expenses are generally recognized when the services are used or the expenses arise while interest expense is accrued in the appropriate period. Employee-related expenses are provided in the period when services are rendered.

Cash and Cash Equivalents

Cash includes cash on hand and with banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of change in value.

Financial Instruments

Date of Recognition

Financial instruments are recognized in the balance sheet when the Group becomes a party to the contractual provisions of the instrument. In the case of a regular way purchase or sale of financial instruments, recognition and derecognition, as applicable, is done using trade date accounting.

Initial Recognition of Financial Instruments

Financial instruments are recognized initially at fair value. The initial measurement of financial instruments, except for those classified as at FVPL, includes transaction cost.

The Group classifies its financial assets in the following categories: financial assets at FVPL, held-to-maturity (HTM) financial assets, loans and receivables and available-for-sale (AFS) financial assets. The Group classifies its financial liabilities as financial liabilities at FVPL and other financial liabilities. The classification depends on the purpose for which the financial assets were acquired or liabilities incurred and whether they are quoted in an active market. Management determines the classification of its financial assets and liabilities at initial recognition and, where allowed and appropriate, re-evaluates such designation at every balance sheet date. As of December 31, 2012 and 2011, the Group has no HTM financial assets and financial liabilities at FVPL.

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits.

Determination of Fair Value

The fair value of financial instruments traded in active market at the reporting date is based on their quoted market price or dealer market price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs. When current bid and ask prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction. For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which observable prices exist, option pricing models and other relevant valuation models.

'Day 1' Difference

Where the transaction price in a non-active market is different from the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (Day 1 difference) in the statement of comprehensive income unless it qualifies for recognition as some other type of asset or liability. In cases where fair value is determined using data which is not observable, the difference between the transaction price and model value is only recognized in the statement of comprehensive income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the "Day 1" difference amount.

Financial Assets at FVPL

Financial assets at FVPL include financial assets held for trading purposes and financial assets designated upon initial recognition as at FVPL.

Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments or a financial guarantee contract. Fair value gains or losses are recognized in statement of comprehensive income. Interest and dividend income or expense is recognized in the statement of comprehensive income, according to the terms of the contract, or when the right to the payment has been established. Interest earned on holding financial assets at FVPL are reported as interest income using the effective interest method. Dividends earned on holding financial assets at FVPL are recognized in the statement of comprehensive income when the right of payment has been established.

Financial assets may be designated as at FVPL by management on initial recognition when any of the following criteria are met:

- The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or recognizing gains or losses on them on a different basis; or
- The assets are part of a group of financial assets which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; or
- The financial instrument contains an embedded derivative that would need to be separately recorded.

As of December 31, 2012 and 2011, the Group's financial assets at FVPL consist of investments in quoted equity securities.

Derivative Financial Instruments

Derivative financial instruments (including bifurcated embedded derivatives) are initially recognized at fair value on the date in which a derivative transaction is entered into or bifurcated and are subsequently re-measured at fair value. Changes in fair value of derivative instruments not accounted for as effective hedges are recognized in the statement of comprehensive income. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Embedded Derivatives

An embedded derivative is separated from hybrid or combined contract if all of the following conditions are met:

- the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics of the host contract;
- a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- the hybrid or combined instrument is not recognized as at FVPL.

The Group assesses whether embedded derivatives are required to be separated from host contracts when the Group first becomes a party to the contract. Reassessment is only done when there are changes in the terms of the contract that significantly modifies the contractual cash flows.

Changes in fair values of bifurcated derivatives are recognized under “Mark-to-market changes of derivative asset” account in the statement of comprehensive income.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are not entered into with the intention of immediate or short-term resale and are not classified as financial assets at FVPL or designated as AFS financial asset. This accounting policy relates to the Group’s “Cash and cash equivalents” and “Receivables” accounts, which arise primarily from advances to related parties and other types of receivables.

After initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less allowance for doubtful accounts. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the EIR. The amortization is included in the “Interest income” account in the statement of comprehensive income. Losses arising from impairment of loans and receivables, if any, are reported as loss on impairment of receivables.

Loans and receivables are classified as current assets when they are expected to be realized within 12 months after the balance sheet date or within the normal operating cycle, whichever is longer. Otherwise, they are classified as noncurrent assets.

AFS Investments

AFS investments are those nonderivative financial assets designated as such or are not classified as at FVPL, HTM financial assets or loans and receivables. These are purchased and held indefinitely and may be sold in response to liquidity requirements or changes in market conditions.

After initial recognition, AFS financial assets are measured at fair value. The unrealized gains and losses arising from the changes in fair values of AFS investments are excluded net of tax from reported earnings and are reported as “Net unrealized valuation gain (loss) on AFS investments” in the equity section of the balance sheet and as part of other comprehensive income in the statement of comprehensive income. When the investment is disposed of or determined to be impaired, the cumulative gains or losses previously recognized in equity is recognized as income in the statement of comprehensive income. Dividends earned on holding AFS investments are recognized when the right of payment has been established. The losses arising from impairment of such investments are recognized as provision for impairment losses in the statement of comprehensive income.

The fair value of AFS investments that are actively traded in organized financial markets is determined by reference to quoted market bid prices at the close of business on the reporting date. AFS investments whose fair value cannot be reliably because of lack of reliable estimates of future cash flows and discount rates necessary to calculate the fair value of unquoted equity instruments, are carried at cost.

The Group’s AFS investments are presented as noncurrent assets in the balance sheets (see Note 8).

Other Financial Liabilities

This category pertains to financial liabilities that are not held for trading or not designated as at FVPL upon the inception of the liability. These include liabilities arising from operations and borrowings. Issued financial instruments or their components, which are not classified as at FVPL are classified as other financial liabilities, where the substance of the contractual arrangement results in the Group having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares. The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

After initial measurement, other financial liabilities are measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the EIR. Any effects of restatement of foreign currency-denominated liabilities are recognized in the “Foreign exchange gains - net” and “Foreign exchange losses - net” accounts in the statement of comprehensive income.

Other financial liabilities are classified as current liabilities when they are expected to be settled within twelve (12) months from the balance sheet date or the Group does not have an unconditional right to defer settlement for at least 12 months from balance sheet date. Otherwise, they are classified as noncurrent liabilities.

This accounting policy applies primarily to the Group’s “Accounts payable and accrued expenses”, “Short-term loans payable”, “Long-term debt” and other obligations that meet the above definition (other than liabilities covered by other accounting standards, such as retirement benefit plan obligation and income tax payable).

Impairment of Financial Assets

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or group of financial asset is deemed impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has or have occurred after initial recognition of the asset (an incurred “loss event”) and that loss has an impact on the estimated future cash flows of the financial asset or the group of financial asset that can be reliably estimated.

Objective evidence includes observable data that comes to the attention of the Group about loss events such as but not limited to significant financial difficulty of the counterparty, a breach of contract, such as a default or delinquency in interest or principal payments, probability that borrower will enter bankruptcy or other financial reorganization.

Loans and Receivables

For loans and receivables, the Group first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on loans and receivables has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original EIR (i.e., the EIR computed at initial recognition). The carrying amount of the asset is reduced through use of an allowance account and the amount of loss is charged to profit or loss. Interest income continues to be recognized based on the reduced amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Receivables, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed. Any subsequent reversal of an impairment loss is recognized in the statement of comprehensive income by adjusting the allowance account.

For the purpose of a collective assessment of impairment, financial assets are grouped on the basis of such credit risk characteristics such as customer type, payment history, past-due status and term. Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group to reduce any difference between loss estimates and actual loss experience.

AFS Investments

For AFS investments, the Group assesses at each reporting date whether there is objective evidence that an AFS investment is impaired.

In the case of an AFS equity investment, this would include a significant or prolonged decline in the fair value of the investment below its cost. "Significant" is to be evaluated against cost of the investment and "prolonged" against the period in which the fair value has been below its original cost. If an AFS investment is impaired, an amount comprising the difference between its cost and its current fair value, less any impairment loss previously recognized in net income, is transferred from other comprehensive income to income in the statement of comprehensive income.

Impairment losses on equity investments are not reversed through the statement of comprehensive income. Increases in fair value after impairment are recognized directly in equity through the statement of comprehensive income.

If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, the amount of loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Derecognition of Financial Instruments

Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired; or
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a “pass-through” arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a “pass-through” arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of comprehensive income.

Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the balance sheet.

Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Costs incurred in bringing each product to its present location and conditions are accounted for as follows:

Finished goods and work in process	- determined using the moving average method; cost includes direct labor and a proportion of manufacturing overhead based on actual production but excluding borrowing cost
Spare parts and other supplies	- purchase cost on a moving average basis

NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. In the case of spare parts and other supplies, NRV is the value of inventories when sold at their condition at the end of the reporting period. In determining NRV, the Company considers any adjustment for obsolescence.

Investments in Associates

The Group's investments in associates are accounted for using the equity method. An associate is an entity in which the Group has significant influence. Under the equity method, the investments in associates are carried in the balance sheet at cost plus post acquisition changes in the Group's share of net assets of the associate.

The statement of comprehensive income reflects the share of the results of operations of the associate. Where there has been a change recognized directly in the equity of the associate, the Group recognizes its share of any changes and discloses this, when applicable, in the statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The share of profit of associates is shown on the face of the statement of comprehensive income. This is the profit attributable to equity holders of the associate and therefore is profit after tax and non-controlling interests in the subsidiaries of the associates.

The financial statements of the associate are prepared for the same reporting period as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognize an impairment loss on the Group's investment in associates. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount in the statement of comprehensive income.

Upon loss of significant influence over the associate, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss.

Property and Equipment

Property and equipment are carried at cost less accumulated depletion, depreciation, amortization and any impairment in value.

The initial cost of property and equipment comprises its purchase price, including import duties, nonrefundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property and equipment have been put into operations, such as repairs and maintenance, are normally charged to income in the period when the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Each part of an item of property and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

Quarry development costs are amortized on a unit of production (UOP) basis over the economically recoverable reserves of the quarry concerned. The unit of account for aggregates is cubic meter in loose volume (LCM).

The estimated fair value attributable to the mineral reserves and the portion of mineral resources considered to be probable of economic extraction at the time of the acquisition is amortized on a UOP basis whereby the denominator is the proven and probable reserves and the portion of resources expected to be extracted economically. The estimated fair value of the mineral resources that are not considered to be probable of economic extraction at the time of the acquisition is not subject to amortization, until the resource becomes probable of economic extraction in the future and is recognized in “Deferred exploration costs” account in the balance sheet.

Depreciation of other items of property and equipment is computed using the straight-line method over the estimated useful lives of the asset as follows:

Category	Number of Years
Condominium units and improvements	20
Machinery and equipment	10 - 15
Transportation equipment	3 - 5
Furniture, fixtures and office equipment	2 - 5

The estimated recoverable reserves, assets residual values, useful lives and depreciation and amortization method are reviewed periodically to ensure that the periods and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

Property and equipment also include the estimated costs of rehabilitating the Group’s Montalban Aggregates Project, for which the Group is liable. These costs are amortized using the units-of-production method based on the estimated recoverable mine reserves until the Group actually incurs these costs in the future.

When assets are retired or otherwise disposed of, both the cost and related accumulated depletion, depreciation, amortization and any impairment in value are removed from the accounts, and any resulting gain or loss is credited to or charged against current operations.

Fully depreciated property and equipment are retained in the accounts until these are no longer in use.

Impairment of Nonfinancial Assets

The Group assesses at each reporting date whether there is an indication that a nonfinancial asset may be impaired when events or changes in circumstances indicate that the carrying value of an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset’s recoverable amount. As asset’s recoverable amount is the higher of an asset’s or cash-generating unit’s fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized in the statements of comprehensive income in those expense categories consistent with the function of the impaired asset.

As assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. However, the increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statements of comprehensive income. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Deferred Exploration Costs

Deferred exploration costs include costs incurred after the Group has obtained legal rights to explore in a specific area, including the determination of the technical feasibility and commercial viability of extracting mineral resources. Deferred exploration costs include, among others, acquisition of rights to explore, topographical and geophysical studies, exploratory drilling, trenching, sampling and activities in relation to evaluating the technical feasibility and commercial viability of extracting mineral resources. All exploration costs and related expenses are carried as deferred exploration costs, net of impairment losses, if any.

The costs and expenses for exploration activities which do not result in the discovery of petroleum or mineral deposits that are commercially productive are recognized in the statement of comprehensive income after the project is abandoned and when management expects no further recovery. When the results of exploration costs are determined to be negative, the accumulated costs are written off. If the results are positive, the deferred exploration costs shall be capitalized and amortized based on the unit of production method from the start of commercial operations.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are made by discounting the expected future cash flows at a pre-tax amount that reflects current market assessments of the time value of money and, when appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset, but only when receipt of reimbursement is virtually certain. The expense relating to any provision is presented in the statement of comprehensive income, net of any reimbursement.

The Group records the present value of estimated costs of legal and constructive obligations required to restore quarry site in the period in which the obligation is incurred. The nature of these restoration activities includes dismantling and removing structures, rehabilitating mines and tailings dams, dismantling operating facilities, closure of plant and waste sites and restoration, reclamation and re-vegetation of affected areas.

The obligation generally arises when the asset is installed or the ground/environment is disturbed at the quarry site. When the liability is initially recognized, the present value of the estimated costs is capitalized by increasing the carrying amount of the related assets to the extent that it was incurred as a result of the development/construction of the quarry. Over time, the discounted liability is increased for the change in present value based on the discount rates that reflect current market assessments and the risks specific to the liability.

The periodic unwinding of the discount is recognized in the statement of comprehensive income. Additional disturbances or changes in rehabilitation costs are recognized as additions or charges to the corresponding assets and decommissioning liability when they occur. Costs related to restoration of site damage (subsequent to start of commercial production) that is created on an ongoing basis during production are provided for at their net present values and recognized in the statement of comprehensive income as extraction progresses.

Any reduction in the decommissioning liability and, therefore, any deduction from the asset to which it relates, may not exceed the carrying amount of that asset. If it does, any excess over the carrying value is taken immediately to the statement of comprehensive income.

For closed sites, changes to estimated costs are recognized immediately in the statement of comprehensive income.

Where the Group expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in profit or loss, net of any reimbursement.

Capital Stock and Additional Paid-in Capital

The Group has issued capital stock that is classified as equity. Incremental costs directly attributable to the issue of new capital stock or options are shown in equity as a deduction, net of tax, from the proceeds. Amount of contribution in excess of par value is accounted for as an additional paid-in capital.

Where the Group purchases the Group's capital stock (treasury shares), the consideration paid, including any directly attributable incremental costs (net of applicable taxes) is deducted from equity attributable to the Group's stockholders until the shares are cancelled or reissued. Where such shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related tax effects, is included in equity attributable to the Group's stockholders.

Retained Earnings

The amount included in retained earnings includes profit attributable to the Group's stockholders and reduced by dividends. Dividends are recognized as a liability and deducted from equity when they are declared. Interim dividends are deducted from equity when they are paid.

Retained earnings are appropriated for the cost of treasury shares acquired. When the appropriation is no longer needed, it is reversed. Dividends for the year that are approved after the balance sheet date are dealt with as an event after the balance sheet date. Retained earnings may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Earnings Per Share

Basic earnings per share is computed based on the weighted average number of shares outstanding and subscribed for each respective period with retroactive adjustments for stock dividends declared, if any. When shares are dilutive, the unexercised portion of stock options is included as stock equivalents in computing diluted earnings per share.

Diluted earnings per share amounts are calculated by dividing the net profit by the weighted average number of ordinary shares outstanding, adjusted for any stock dividends declared during the year plus weighted average number of ordinary shares that would be issued on the conversion of all the dilutive ordinary shares into ordinary shares.

Segment Reporting

An operating segment is a component of an entity that: (a) engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity); (b) whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and (c) for which discrete financial information is available.

The Group's segments pertain to its investment in a subsidiary and investments in associates. This segment is carried by VMC, a subsidiary and North Triangle Depot Commercial Corporation (NTDCC) and United Paragon Mining Corporation (UPMC), the Group's associates. The summarized financial and other relevant information of the Group's associates are disclosed in Notes 10 and 26 to the financial statements.

Income Taxes

Current Income Tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as at the balance sheet date.

Deferred Income Tax

Deferred income tax is provided, using the balance sheet liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized.

Deferred income tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Retirement Benefit Plan

The Group has a defined retirement benefit plan which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit actuarial valuation method. Actuarial gains and losses are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses for the plan at the end of the previous reporting year exceeded 10% of the higher of the defined benefit obligation and the fair value of plan assets at that date. These gains or losses are recognized over the expected average remaining working lives of the employees participating in the plan.

The past service cost is recognized as an expense on a straight-line basis over the average period until the benefits become vested. If the benefits are already vested immediately following the introduction of, or changes to, a pension plan, past service cost is recognized immediately.

The defined benefit liability (asset) is the aggregate of the present value of the defined benefit obligation and actuarial gains and losses not recognized reduced by past service cost not yet recognized and the fair value of plan assets out of which the obligations are to be settled directly. If such aggregate is negative, the asset is measured at the lower of such aggregate or the aggregate of cumulative unrecognized net actuarial losses and past service cost and the present value of any economic benefits available in the form of refunds from the plan or reductions in the future contributions to the plan.

If the asset is measured at the aggregate of cumulative unrecognized net actuarial losses and past service cost and the present value of any economic benefits available in the form of refunds from the plan or reductions in the future contributions to the plan, net actuarial losses of the current period and past service cost of the current period are recognized immediately to the extent that they exceed any reduction in the present value of those economic benefits. If there is no change or an increase in the present value of the economic benefits, the entire net actuarial losses of the current period and past service cost of the current period are recognized immediately. Similarly, net actuarial gains of the current period after the deduction of past service cost of the current period exceeding any increase in the present value of the economic benefits available in the form of refunds from the plan or reductions in the future contributions to the plan. If there is no change or a decrease in the present value of the economic benefits, the entire net actuarial gains of the current period after the deduction of past service cost of the current period are recognized immediately.

Foreign Currency Transactions

Transactions in foreign currencies are initially recorded using the exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are restated using the rate of exchange at the balance sheet date. Exchange gains and losses arising from foreign currency transactions and translations of foreign currency denominated monetary assets and liabilities are credited to or charged against current operations. Nonmonetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the date of the initial transactions.

Contingencies

Contingent liabilities are not recognized in the financial statements. These are disclosed in the notes to the financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

Events After the Balance Sheet Date

Post year-end events that provide additional information about the Group's position at the balance sheet date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to financial statements when material.

3. **Significant Accounting Judgments and Estimates**

The Group's financial statements prepared in accordance with PFRS require management to make judgments and estimates that affect amounts reported in the financial statements and related notes. The judgments and estimates used in the financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the financial statements. Actual results could differ from such estimates.

Judgments and estimates are continually evaluated and are based on historical experiences and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

Determining Functional Currency

Based on the economic substance of the underlying circumstances relevant to the Group, the functional currency of the Group has been determined to be the ₱. The ₱ is the currency of the primary economic environment in which the Group operates.

Determining Whether Significant Influence Exists for Purposes of Applying PAS 28, Investment in Associates

The Group evaluates various factors in determining whether significant influence exists. Under PAS 28, there is a presumption that if ownership is below 20%, significant influence does not exist unless otherwise supported. Among the factors being considered by management in the assessment are, degree of representation in the BOD of the investee, representations in management committees of the investee, corporate governance arrangements, and power to veto significant operating and financial decisions.

Under the exercise of this judgment, the Group classified its 15.79% investment in NTDCC as an investment in associate. The carrying value of this investment is ₱369,444,795 and ₱387,032,948 as of December 31, 2012 and 2011, respectively (see Note 10).

Also, the Group has investment in UPMC where ownership is 21.81% in 2012 and 2011. This is classified as an investment in associate. The carrying value of this investment is ₱518,306,053 and ₱538,691,489 as of December 31, 2012 and 2011, respectively (see Note 10).

Determining Whether Investments in Associates Qualify as Operating Segments for Purposes of Applying PFRS 8

The Group exercises judgment in determining whether investments in associates qualify as operating segments as prescribed by PFRS 8 although the Group does not control the investees. Management considers the following factors in its assessment: review of operating results and performance of an equity method investee for purposes of making resource allocations, evaluating financial performance or evaluating whether to retain the investor-investee relationship. Based on management judgment, the Group considers its investments in UPMC and NTDCC as operating segments. The carrying value of the Group's investments in associates amounted to ₱887,750,848 and ₱925,724,437 as of December 31, 2012 and 2011, respectively (see Note 10).

Estimates

Estimating Impairment of Receivables

The Group assesses at each reporting date whether there is any objective evidence that receivables are impaired. To determine whether there is objective evidence of impairment, the Group considers factors such as the probability of insolvency or significant financial difficulties of the affiliated companies and default or significant delay in payments. Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on age and status of the financial asset, as well as historical loss experience. Allowance for impairment loss is provided when management believes that the receivable balance cannot be collected or realized after exhausting all efforts and courses of action.

In addition to specific allowance against individually significant loans and receivables, the Group also makes a collective impairment allowance against exposures which, although not specifically identified as requiring a specific allowance, have a greater risk of default than when originally granted. This collective allowance is based on any deterioration in the Group's assessment of the accounts since their inception. The Group's assessments take into consideration factors such as any deterioration in country risk and industry, as well as identified structural weaknesses or deterioration in cash flows.

No allowance for impairment losses on receivables was recognized in 2012. In 2011, the Group wrote-off its receivable from Vulcan Industrial and Mining Corporation (VIMC) amounting to ₱2,130,186. The receivables are carried at ₱224,261,211 and ₱221,184,639 as of December 31, 2012 and 2011, respectively (see Note 6).

Estimating Impairment of AFS Equity Investments

The Group treats AFS equity investments as impaired when there has been a significant or prolonged decline in fair value below its cost. This determination of what is significant or prolonged requires judgment. The Group treats "significant" generally as 20% or more of the original cost of the investment, and "prolonged" as greater than 12 months. In making this judgment, the Group evaluates among other factors, the normal volatility of quoted prices, evidence of deterioration in the financial health of the investee, industry or sector performance, changes in technology and economic environment. For AFS investments carried at cost, the Group estimates the expected future cash flows from the investment and calculates the amount of impairment as the difference between the present value of expected future cash flows from the investment and its acquisition cost and recognizes the amount in the statement of comprehensive income.

AFS investments amounted to ₱3,246,796,186 and ₱2,925,654,256 as of December 31, 2012 and 2011, respectively. There are no impairment losses on AFS investments recognized in 2012 and 2011 (see Note 8).

Estimating Fair Values of Financial Assets and Financial Liabilities

Where the fair values of financial assets and liabilities recorded in the balance sheets cannot be derived from active markets, they are determined using generally accepted market valuation models. The inputs to these models are taken from observable markets, where possible but where this is not feasible, estimates are used in establishing fair values. These estimates may include considerations of liquidity, volatility and correlation. The fair values of financial instruments are presented in Note 25.

Estimating NRV of Inventories

The Group estimates the allowance for inventory based on the age of blue rocks and physical deterioration of spare parts. Provisions are made for inventories that are no longer used in the production process. The amounts and timing of recorded expenses for any period would differ if different judgments or different estimates are made. An increase in allowance for inventory obsolescence would increase recorded general and administrative expenses and decrease current assets.

Allowance for inventory losses amounted to ₱5,220,738 as at December 31, 2012 (see Note 7).

Estimating Impairment of Property and Equipment

The Group assesses impairment on property and equipment and other noncurrent assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Group considers important which could trigger an impairment review include the following:

- Significant underperformance relative to expected historical or projected future operating results;
- Significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- Significant negative industry or economic trends.

An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's net selling price and value in use. The net selling price is the amount obtainable from the sale of an asset in an arm's length transaction while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs. For impairment loss on specific assets, the recoverable amount represents the net selling price.

In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Group is required to make estimates and assumptions that can materially affect the financial statements.

No impairment losses were recognized in 2012 and 2011 for property and equipment. As of December 31, 2012 and 2011, the net book values of property and equipment amounted to ₱71,033,404 and ₱16,608,730, respectively (see Note 11).

Estimating Impairment of Deferred Exploration Costs

The Group assesses impairment on deferred exploration costs when facts and circumstances suggest that the carrying amount of the asset may exceed its recoverable amount. Until the Group has sufficient data to determine technical feasibility and commercial viability, deferred exploration costs need not be assessed for impairment. Facts and circumstances that would require an impairment assessment as set forth in PFRS 6, *Exploration for and Evaluation of Mineral Resources*, are as follows:

- The period for which the Group has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- Substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;

- Exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area; and
- Sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

The carrying value of deferred exploration costs amounted to ₱190,833,973 and ₱156,979,742 as of December 31, 2012 and 2011, respectively. As of December 31, 2012 and 2011, no allowance for impairment losses on deferred exploration costs was recognized by the Group (see Note 12).

Estimating Useful Lives of Property and Equipment

The Group estimates the useful lives of property and equipment, except for quarry development costs, based on the period over which the assets are expected to be available for use. Quarry development costs are amortized based on estimated aggregate reserves. The estimated useful lives of property and equipment are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimation of the useful lives is based on the collective assessment of internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances.

As of December 31, 2012 and 2011, the net book values of property and equipment, excluding quarry development costs, amounted to ₱18,078,774 and ₱16,608,730, respectively (see Note 11). The estimated useful lives are disclosed in Note 2 to the financial statements.

Estimating Aggregate Reserves

The Group assesses its estimate of aggregate reserves on an annual basis. The Group's estimated reserves are based on the estimates of the Group's geologists. Annually, an inventory of the remaining reserves is derived by subtracting the annual production, which is reported to the Mines and Geo-Sciences Bureau. The estimated mineral reserves were 7,533,595 LCM as of December 31, 2012.

Estimating Realizability of Deferred Income Tax Assets

The Group reviews the carrying amounts of deferred income tax assets at each balance sheet date and reduces the amounts to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized. However, there is no assurance that the Group can generate sufficient taxable profit to allow all or part of its deferred income tax assets to be utilized.

The Group has deferred income tax assets amounting to ₱11,376,440 and ₱8,785,895 as of December 31, 2012 and 2011, respectively (see Note 23).

The Group did not recognize deferred income tax assets on deductible temporary differences and carryforward benefits of MCIT and NOLCO since management believes that it is not probable that sufficient taxable profit will be available against which the benefits can be utilized (see Note 23).

Estimating Retirement Benefits Expense (Income)

The determination of the Group's obligation and cost for retirement is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. These assumptions are described in Note 22 to the financial statements. Actual results that differ from the Group's assumptions are accumulated and amortized over future periods and therefore, generally affect the Group's recognized expense and recorded obligation in such future periods. While management believes that its assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in the assumptions may materially affect the Group's retirement obligations.

As of December 31, 2012 and 2011, the retirement benefit plan asset amounted to ₱9,171,424 and ₱9,557,173, respectively, while retirement benefit liability amounted to ₱5,382,060 as of December 31, 2012. Net retirement benefit expense (income) for the years ended December 31, 2012, 2011 and 2010 amounted to ₱385,749, (₱1,837,943) and ₱3,053,129, respectively (see Note 22).

Estimating the Decommissioning Liability

The Group has a legal obligation to decommission the quarry site located at Montalban, Rizal relating to its Montalban Project Aggregates at the end of its useful life in accordance with the Environmental Compliance Certificate issued by the Department of Environment and Natural Resources. The Group recognizes the present value of the obligation to decommission the quarry site and capitalizes the present value of this cost as part of the balance of the related property and equipment, which are being depreciated and amortized on a UOP basis.

Cost estimates expressed at current price levels at the date of the estimate are discounted using a rate of interest of 2.98% per annum to take into account the timing of payments. Each year, the provision is increased to reflect the accretion of discount and to accrue an estimate for the effects of inflation, with charges being recognized as accretion expense.

Changes in the decommissioning liability that result from a change in the current best estimate of cash flows required to settle the obligation or a change in the discount rate are added to (or deducted from) the amount recognized as the related asset and the periodic unwinding of the discount on the liability is recognized in the statement of comprehensive income as it occurs. While the Group has made its best estimate in establishing the decommissioning provision because of potential changes in technology as well as safety and environmental requirements, plus the actual time scale to complete decommissioning activities, the ultimate provision requirements could either increase or decrease significantly from the Group's current estimates.

Decommissioning liability amounted to ₱13,926,467 as of December 31, 2012 (see Note 13).

4. Cash and Cash Equivalents

	2012	2011
Cash on hand and with banks	₱30,834,232	₱7,955,254
Short-term deposits	8,020,336	42,683,711
	₱38,854,568	₱50,638,965

Cash with banks earn interest at their respective bank deposit rates. Short-term deposits are made for varying periods of up to three months depending on the immediate cash requirements of the Group and earn interest at the respective short-term deposit rates (see Note 21).

For the purpose of the statement of cash flows, cash and cash equivalents comprise the following as at January 1:

	2011	2010
Cash on hand and with banks	₱3,708,565	₱64,383,119
Short-term deposits	161,420,448	15,204,923
	₱165,129,013	₱79,588,042

5. Financial Assets at FVPL

This account consists of investments in shares of stock of the following companies:

	2012	2011
Shang Properties, Inc. (SPI)	₱642,437,226	₱462,554,801
The Philodrill Corporation (TPC)	114,564,718	63,312,081
VIMC	–	10,780,000
	₱757,001,944	₱536,646,882

In 2012, the Group sold to National Book Store, Inc., an entity under common control of an individual stockholder, all its 12,250,000 shares of stock in VIMC at ₱1.00 per share or an aggregate price of ₱12,145,730, net of selling costs amounting to ₱104,270. The Group recognized loss on sale of investment amounting to ₱4,881,770.

In 2011, the Group purchased 2,692,307,692 shares of TPC from VIMC for ₱0.013 per share or an aggregate price of ₱35,122,850, including incidental cost of ₱122,850.

Gains on fair value changes of financial assets at FVPL recognized in 2012, 2011 and 2010 amounted to ₱237,382,562, ₱34,915,718 and ₱93,783,042, respectively. Cumulative unrealized gain on fair value changes of financial assets at FVPL amounted to ₱542,926,631 and ₱316,425,071 as of December 31, 2012 and 2011, respectively.

6. Receivables

	2012	2011
Trade	₱19,716,764	₱–
Related parties (see Note 17)	218,352,780	194,006,463
Others	3,072,161	27,178,176
	241,141,705	221,184,639
Less allowance for impairment losses	16,880,494	–
	₱224,261,211	₱221,184,639

The following are the significant transactions entered into by the Group in relation to its receivables:

- Trade receivables are noninterest-bearing and generally have a 30-day term.

- b. On July 9, 2009, the Group extended a loan of ₱531,300,000 (\$11,500,000) to ACMDC, a publicly-listed entity under common control. The loan is collectible 365 days after July 9, 2009 and bears interest of 15% per annum, collectible semi-annually in arrears. Based on the terms of the loan agreement, the Group has the option to demand early repayment of the loan and accrued interest 180 days after July 9, 2009.

In addition, the Group has the option to effect payment of principal and interest through any one or combination of the following:

- Cash payment equal to amount of loan and interest, either in \$ or ₱ or a combination of both currencies;
- Delivery of common shares of Aquatlas, Inc. (AI), a subsidiary of ACMDC, at a conversion price which shall be mutually agreed upon by the parties; and/or
- Delivery of common shares of ACMDC at a conversion price of ₱10 per share.

The embedded equity call option was accounted for separately since it is not closely related to the host debt contract. Derivative asset relating to the option amounted to ₱79,799,174 in 2010. The mark-to-market gain on derivative asset recognized in the statements of comprehensive income amounted to ₱307,718,166 in 2010.

As of December 31, 2010, the net movement in the discount recognized on the receivable arising from the bifurcation of the embedded equity call option is as follows:

Balance at beginning of year	₱25,374,995
Accretion of discount on receivable (see Note 20)	(25,374,995)
Balance at end of year	₱-

- c. Interest receivable, which is presented as “Others” under the “Receivables” account in the balance sheets, amounted to ₱16,480 and ₱32,224 as of December 31, 2012 and 2011, respectively.

Provisions for impairment losses on trade receivables and other receivables were made on accounts specifically identified to be doubtful of collection.

Other than the receivables which were provided with allowance, all other receivables are assessed to be collectible and in good standing as of December 31, 2012 and 2011 (see Note 25).

7. Inventories

As of December 31, 2012, inventories consist of:

At NRV	
Finished goods (see Note 16)	₱3,712,483
Spare parts and other supplies	39,280
At cost:	
Work in process (see Note 16)	100,554
	₱3,852,317

Allowance for impairment losses relating to finished goods, spare parts and other supplies amounted to ₱5,220,738 as at December 31, 2012.

8. AFS Investments

	2012	2011
Quoted equity shares - at fair value	₱3,208,368,350	₱2,887,226,420
Unquoted equity shares - at cost	38,427,836	38,427,836
	₱3,246,796,186	₱2,925,654,256

Quoted AFS investments represent investment in ACMDC.

In 2012, ACMDC increased its authorized capital stock and the Group purchased additional 120,000 shares at an aggregate price of ₱2,093,121. However, the Group's ownership decreased, despite the purchase of additional shares, from to 9.72% in 2011 to 8.27% 2012.

In 2011, the Group advanced ₱1,579,100 for future subscription to Rail Transit and Development, Inc. These are included under AFS investments in unquoted equity shares. The aggregate cost of AFS investments amounted to ₱2,074,792,618 and ₱2,072,699,497 as of December 31, 2012 and 2011, respectively.

No impairment loss was recognized in 2012, 2011 and 2010 on the Group's investment in ACMDC quoted shares.

Movements in the unrealized valuation gain (loss) on AFS investments recognized as a separate component of equity are as follows:

	2012	2011
Balances at beginning of year	₱852,954,759	₱962,683,079
Changes in fair value of AFS investments	319,048,809	(109,728,320)
Balances at end of year	₱1,172,003,568	₱852,954,759

No AFS investments were sold in 2012 and 2011.

9. Acquisition of a Subsidiary

As discussed in Note 1, the Parent Company acquired VMC on December 18, 2012.

The cost of acquiring VMC amounted to ₱1,185,919, payable on or before December 14, 2013.

The fair values of identifiable acquired assets and liabilities of VMC at the time of acquisition are as follows:

Current assets	₱10,878,283
Noncurrent assets	97,460,355
Current liabilities	(82,411,276)
Noncurrent liabilities	(24,741,443)
Fair value of net assets	₱1,185,919

Cash consideration:

Cash acquired from a subsidiary	₱278,416
Cash paid (see Note 27)	(500,000)
Net cash outflow	(₱221,584)

Total consideration consists of:

Cash	₱500,000
Payable to VIMC	685,919
Total	₱1,185,919

10. Investments in Associates

Revenues	1,875,669	1,776,526
Net income	351,712	292,368

Investment in UPMC

UPMC's main business is the exploration, development, exploitation, recovery and sale of gold. UPMC became an associate on August 1, 2008, with the conversion of the Group's receivable from UPMC to the latter's common shares.

On December 28, 2011, the Group sold its 9,954,873,395 shares of UPMC to EPL at ₱0.024 per share. The proceeds were settled through offsetting of accounts between the Group and EPL. Accordingly, the Group's ownership in UPMC decreased from 25.62% in 2010 to 21.81% in 2011 (see Note 15).

Investment in NTDCC

NTDCC owns and operates the Triangle North of Manila (TriNoma) Commercial Center which is built adjacent to the Metro Rail Transit (MRT) Depot. The development rights over the 8.3-hectare portion of the MRT Depot were acquired from MRTDC in 2002.

12. Deferred Exploration Costs

The Group is a participant in certain Service Contracts (SC) and Geophysical Survey and Exploration Contracts (GSEC) with the Philippine Government, through the Department of Energy (DOE), for the exploration, development and exploitation of the contract areas situated in Northwest Palawan, Sulu Sea and Mindoro Island.

The aforementioned SC and GSEC, which provide for minimum work expenditure obligations and the drilling of a specified number of wells, are covered by operating agreements which set forth the participating interests, rights, and obligations of the participants to the contracts. The deferred exploration costs represent the Group's share in the jointly controlled assets of the aforementioned SCs and GSECs. The full recovery of the deferred exploration costs incurred in connection with the Group's participation in the exploration of the contract areas is dependent upon the discovery of mineral resources from the respective contract areas and the success of the future development thereof.

The percentage of participation and the balances of the deferred exploration costs as of December 31 are as follows:

SC No. 6A (Opton)

In early 2012, block operator Pitkin Petroleum Limited contracted RPS Energy for the parameters design and tendering of the 500 sq km 3D seismic program over the northern part of the block to further evaluate a number of prospects and leads that they have previously identified. Tenders for the seismic acquisition and hi-resolution swath bathymetry have already been issued. As part of the preparations for the seismic campaign, Pitkin has embarked on an information and education campaign (IEC). The seismic survey is targeted to commence in the second quarter of 2013. Anglo enjoys a free carry on the cost of this seismic survey.

SC No. 14 (Northern Palawan, Tara Block)

No exploration or production activities are being carried out in this block. However, Philodrill acting on behalf of the consortium, notified the Department of Energy (DOE) of the consortium's intention to turn-over control and ownership of the idle Pandan and Libro platforms to the government in accordance with provisions of Service Contract No.14. Philodrill also submitted a Release and Waiver document to the DOE since the consortium has no further use of said offshore facilities. Once approved and accepted by the government, the consortium's initiative will clear the way for the possible takeover of the facilities by the Philippine Navy to serve as forward outposts in the West Philippine Sea area.

In accordance with generally accepted offshore oilfield practices, the consortium will plug and abandon the existing wells serviced by these platforms. In this regard, the consortium has contracted EDSL Consultants to conduct an integrity test program for the Libro and Pandan wells, as well as for the Tara South well which is under Trans-Asia's operatorship. EDSL is now preparing the design and costing for the actual Plug & Abandonment operations scheduled in the first semester of 2013.

SC No. 41 (Sulu Sea)

Area 15, which covers the old SC 41 block, was one of fifteen areas offered by the DOE under the 4th Philippine Energy Contracting Round 4 (PECR4) which opened in June 2011. Philodrill executed a Joint Application and Participation Agreement with Philex Petroleum Corporation to jointly participate in the bidding for Area 15. Philodrill as the lead party prepared the bid application documents which it submitted to the DOE in May 2012. To date, the DOE has yet to release the bidding results for Area 15.

Should Philodrill and Philex Petroleum win the bidding for Area 15, Anglo has an option to acquire a portion of Philodrill's interest in Area 15.

SC NO. 53 (Onshore Mindoro)

In May 2012, Pitkin completed the reprocessing of the 200 line-kilometers of onshore seismic data acquired in 2010. While initial results indicated a better resolution of the subsurface structure, it was recognized that acquisition of additional geophysical data will further improve subsurface imaging of the features in the area.

Gradiometry and LIDAR (Light Detection and Ranging) surveys were then conducted in the second quarter of 2012 and the combined results verified existing structures and helped modify structural styles and dimensions of the identified structures. Data interpretation likewise identified several anomalies or new potential leads.

Parallel to the geophysical activities, Pitkin started preparations for the drilling of the Progreso 2 well and has sent out tenders for the various services and equipment required for the drilling campaign. Drilling of the Progreso 2 well is planned for the first semester of 2013.

Pitkin has also completed a study of the Mindoro Island power situation and how any hydrocarbon discovery will impact on the overall power requirement/development in the island.

SWAN BLOCK (Deepwater Northwest Palawan)

The consortium continues to work on a possible swap of participating interest in some of their blocks in exchange for interests in Service Contract No. 57 and 58 of PNOC-EC, which now cover the old SWAN Block.

Comet Nickel-Chromite Project

The Group and Comet signed a Memorandum of Agreement (MOA) on December 4, 2007, to process, occupy, use and control explore, develop, conduct mining, mine, process and market any product from the MPSA 003-90-X area which was registered with the DENR-Region VI at Surigao City on January 22, 2008.

On March 25, 2010, the Mines and Geoscience Bureau (MGB) responded to Comet's concern, regarding the application for renewal of the MPSA in subject, stating that the same was already approved through a letter dated November 20, 2009. However, Comet responded through a letter to MGB on April 7, 2010 objecting to the further evaluation and eventual approval of the MPSA. Management believes that the future outcome is favorable to the Group.

Bataan Aggregates Project

The Bataan Aggregates Project is located in Barangay Nagbalayong, Municipality of Morong, Bataan. The Aggregates Project Sharing Agreement No. 000328-III was filed on January 8, 2001 with an area of 138.0397 hectares while the ISAG Permit No. III-02-08 with an area of 12.8 hectares was granted on December 17, 2008.

Batangas Aggregates Project

The Batangas Aggregates Project is located in Barangay San Miguel, Batangas City, Batangas. It is covered by MPSA No. 091-97-IV granted on November 20, 1997 with an area of 332.3980 hectares.

The recovery of these deferred exploration costs incurred in connection with the Group's participation in the acquisition and mineral exploration activities depends upon the discovery of commercial quantities or the success of exploration activities and future development of the corresponding mining properties.

The Group maintains an account with Land Bank of the Philippines for its MRF pursuant to the requirements of Republic Act (RA) No. 7942, otherwise known as "The Philippine Mining Act of 1995". The MRF shall be used for the physical and social rehabilitation of areas and communities affected by mining activities and for research in the social, technical and preventive aspects of rehabilitation.

13. Other Noncurrent Assets and Liabilities

Other Noncurrent Assets

Other noncurrent assets include deposits made to Comet Mining Exploration Corporation and Asencio Pinzon Aggregates Corporation (APAC), owner of the mining rights on Loreto, Dinagat and Rodriguez, Rizal, respectively. The Group conducts exploration activities on those locations.

It also includes advances made to Vinc Vita Mining Corporation (VVMC) pertaining to the acknowledgment of the Group to develop and exploit the area on Bolinao, Pangasinan upon securing the necessary application and exploration permit by VVMC.

Other Noncurrent Liabilities

Unearned Revenues

On August 8, 2008, the Group and Angat Rockbase Concrete Aggregates, Inc. (ARCAI) entered into a MOA wherein the Group warrants the delivery of approximately 2,000 - 2,200 LCM per day of blasted materials to ARCAI at the agreed price equivalent to Group's prevailing material cost plus ₱20.

ARCAI also agreed to pay ₱20.0 million as contribution to the costs incurred by the Group and to develop the quarry and cost to prepare the area to be designated for use by ARCAI. The amount is payable as follows:

- ₱5.0 million front end signing of contract; and
- ₱15.0 million to be build-in the cost of raw materials and amortized over three years at the committed volume of 600,000 LCM per annum or ₱8.33 per LCM.

On July 24, 2012, the Group and ARCAI signed a MOA extending the term of the original agreement by another 5 years from the original expiration date. For and in consideration of the renewal, ARCAI agreed to pay the Group ₱1.5 million upon signing to pay for the historical development cost on the last year of the extended agreement.

As of December 31, 2012, the Group has already delivered a total of 384,150 LCM of blasted materials to ARCAI. Unearned revenues amounted to ₱5.4 million as of December 31, 2012.

Decommissioning liability

Decommissioning liability amounted to ₱13.9 million as of December 31, 2012. This was based on technical estimates of probable costs, which may be incurred by the Group in rehabilitating the quarry site in Montalban, Rizal relating to its Montalban Aggregates Project from 2012 up to 2023, discounted at the rate of 2.98% per annum.

Furthermore, the Group maintains an account with Land Bank of the Philippines for its Mine Rehabilitation Fund pursuant to the requirements of Republic Act (RA) No. 7942, otherwise known as "The Philippine Mining Act of 1995". The MRF shall be used for the physical and social rehabilitation of areas and communities affected by mining activities and for research in the social, technical and preventive aspects of rehabilitation. This is presented as part of "Other Noncurrent Assets" account in the balance sheet.

14. Short-term Loans Payable

MBTC	₱3,117,531	₱-
LBP	-	50,000,000
	₱3,117,531	₱50,000,000

- a. VMC obtained from Metropolitan Bank and Trust Company (MBTC) a loan which bears interest of 12% per annum maturing on June 2013. This loan is secured by a pledge agreement and a continuing surety agreement executed by VMC and a stockholder and assignment of substantially all of the assets of VMC. As of December 31, 2012, the outstanding balance of the loan amounted to ₱3.1 million.
- b. Short-term loan payable to LBP represents short-term revolving bank loan. The loan bears an interest of 8.25% and matures every six months. The loan is guaranteed by a stockholder. On January 6, 2012, the Parent Company paid in full its outstanding short-term loan payable to LBP.

Interest expense relating to the above loans amounted to ₱68,750, ₱6,712,292 and ₱11,901,771 for the years ended December 31, 2012, 2011 and 2010, respectively (see Note 21).

15. Long-term Debt

The long-term debt of the Group pertains to loans availed from EPL and TPC which are summarized as follows:

	2012	2011
EPL loans, net of discount of ₱164,446,948 in 2012 and ₱127,592,435 in 2011	₱1,509,090,960	₱1,624,616,451
TPC	100,000,000	50,000,000
	1,609,090,960	1,674,616,451
Less current portion - EPL and TPC	535,062,543	607,188,784
Noncurrent portion - EPL	₱1,074,028,417	₱1,067,427,667

Related interest expense on EPL loan amounted to ₱27,532,368, ₱32,698,253 and ₱33,283,076, for the years ended December 31, 2012, 2011 and 2010, respectively (see Note 21).

- a. In 2007, EPL granted the Group a loan amounting to ₱846,105,746 which bears interest of 1% payable quarterly and is scheduled to mature on October 23, 2012. The unamortized discount on the said loan amounted to nil and ₱11,049,496 as of December 31, 2012 and 2011, respectively (see Note 25).

	66,954,436	41,240,783
	₱55,577,996	₱32,454,888

As of December 31, 2012, the Group did not recognize deferred income tax assets on the following deductible temporary differences and carryforward benefits of MCIT and NOLCO since management believes that it is not probable that sufficient taxable profit will be available against which the benefits can be utilized:

Deductible temporary differences on:	
Allowance for impairment losses on:	
Receivables	₱11,447,577
Other noncurrent assets	2,850,000
Other current assets	56,137
NOLCO	11,892,502
Retirement benefit liability	5,382,060
Allowance for inventory obsolescence	5,220,738
MCIT	1,413,514
Decommissioning liability	890,266

As of December 31, 2012, NOLCO and MCIT that can be claimed as deduction from future taxable income and income tax liabilities, respectively, are as follows:

Year Incurred	Year of Expiration	NOLCO	MCIT
2012	2015	₱8,014,384	₱373,607
2011	2014	990,442	538,558
2010	2013	2,977,150	501,349
		₱11,981,976	₱1,413,514

The reconciliation of income tax computed at statutory tax rate to provision for income tax follows:

	2012	2011	2010
Income tax at statutory rate	₱126,989,639	₱96,883,508	₱169,444,522
Additions to (reductions in) income tax resulting from:			
Nondeductible expenses	1,571,333	4,702,966	114,195
Fair value changes of financial assets at FVPL	(71,214,769)	(10,474,716)	(28,134,913)

Dividend income subject to zero-rated income tax	(6,237,084)	(5,271,811)	(5,904,556)
Interest income subjected to final tax and others	(186,184)	(1,033,583)	(293,065)
Income subjected to transfer tax	–	(43,450,848)	(3,470,020)
Mark-to-market changes in derivative asset relating to receivable converted to equity	–	–	(116,255,202)
	₱40,377,965	₱32,249,081	₱4,041,045

In accordance with RA No. 9337, the statutory income tax rate and unallowable interest expense rate are reduced from 35% to 30% and 42% to 33%, respectively, beginning January 1, 2009.

24. Basic and Diluted EPS

Basic and diluted earnings per share are computed as follows:

	2012	2011	2010
Net income for the year	₱382,920,830	₱290,695,947	₱560,774,028
Divided by weighted average number of common shares	1,164,999,818	1,165,000,000	1,165,000,000
Basic and diluted earnings per share	₱0.33	₱0.25	₱0.48

The resulting per share amounts are the same for both basic and diluted earnings per share in 2012, 2011 and 2010 since the Group does not have any debt or equity securities that will potentially cause an earnings per share dilution.

25. Financial Risk Management and Capital Management

The main purpose of the Group's financial liabilities is to finance the Group's operations and capital expenditures. The Group has various financial assets such as cash and cash equivalents, receivables, financial assets at FVPL and AFS investments which arise directly from its operations.

The BOD has the overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management policies are established to identify and manage the Group's exposure to financial risks, to set appropriate transaction limits and controls, and to monitor and assess risks and compliance to internal control policies. Risk management policies and structure are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Group has exposure to credit risk, liquidity risk, foreign currency risk and equity price risk from the use of its financial instruments. The Board reviews and approves the policies for managing each of these risks and they are summarized below.

Credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises principally from the Group's cash with banks, short term deposits and receivables.

The Group ensures that its financial assets are considered high grade by transacting only with top banks in the Philippines and maintaining good relationships with related parties, key employees and debtors who are highly reputable and with good credit standing.

The Group has assessed the credit quality of the following financial assets:

- Cash and cash equivalents and short-term deposits are classified as high grade since these are deposited with reputable counterparties.
- Trade and other receivables that are past due by over 120 days are still collectible from various debtors. Receivables from related parties are classified standard grade since these are receivables from related parties which were transacted on an arm's length basis taking into account the related parties' financial standing and ability to pay. Other than receivable which was written off in 2011, there was no history of default on the outstanding receivables as of December 31, 2012 and 2011.

Cash with banks are deposits made with reputable banks duly approved by the BOD.

Receivable balances are monitored on an ongoing basis with the result that the Group's exposure to credit risk is not significant. There were no impaired receivables as of December 31, 2012. In 2011, the Group wrote-off its receivable from VIMC amounting to ₱2,130,186 (see Note 6). The remaining receivables are not past due and are assessed to be collectible and in good standing as of December 31, 2012 and 2011.

The Group's maximum exposure to credit risk is equal to the aggregate carrying amount of its financial assets.

Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's objectives to managing liquidity risk is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions.

The Group manages liquidity risk by maintaining a balance between continuity of funding and flexibility in operations. Treasury controls and procedures are in place to ensure that sufficient cash is maintained to cover daily operational and working capital requirements. Management closely monitors the Group's future and contingent obligations and sets up required cash reserves as necessary in accordance with internal policies.

The Group's financial assets used for liquidity management are its cash and cash equivalents, financial assets at FVPL, receivables and AFS investments.

As of December 31, 2012 and 2011, the Group's cash and cash equivalents may be withdrawn anytime, while its financial assets at FVPL and AFS investments are traded in the stock exchange and may be converted to cash by selling them during the normal trading hours on any business day.

The maturity profile of the Group's financial assets used for liquidity management based on their maturities are as follows:

Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and other market variables which will adversely affect the Group's total comprehensive income or value of its financial instruments. The objective of the Group's market risk management is to manage and control market risk exposures within acceptable parameters. The exposures to specific market risks are as follows:

Foreign Exchange Risk

The Group uses the Philippine peso as its functional currency and is therefore exposed to foreign exchange movements, primarily in U.S. dollar currency. The Group follows a policy to manage its foreign exchange risk by closely monitoring its cash flow position and by providing forecast on all other exposures in non-peso currencies.

Information on the Group's \$-denominated monetary assets and liabilities and their ₱ equivalent are as follows:

	2012		2011	
	\$	₱	\$	₱
Financial Assets:				
Cash and cash equivalents	674,752	27,698,572	645,451	28,296,572

As of December 31, 2012 and 2011, the exchange rate of the Philippine peso to the USD is ₱41.05 and ₱43.84, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in Philippine ₱/\$, with all other variables held constant, of the Group's income before income tax.

There is no other impact on the Group's equity other than those affecting the statements of comprehensive income.

	Change in P/\$ exchange rate	
	\$ strengthens by 5%	\$ weakens by 5%
Increase (decrease) in income before income tax and inequity		
2012	(P24,161,448)	P24,161,448
2011	(26,020,081)	26,020,081
2010	(22,329,231)	22,329,231

Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as a result of changes in the levels of equity indices and the value of the listed shares. The equity price risk exposure arises from the Group's investment in financial assets at FVPL and quoted AFS investments.

The effects on equity and income before income tax, (as a result of a change in the fair value of AFS equity investments and financial assets at FVPL, respectively, at December 31, 2012, 2011 and 2010 due to a reasonably possible change in bid market prices, with all other variables held constant), are as follows:

Financial Assets at FVPL

	Change in fair market value	
	Increase in market indices by 5%	Decrease in market indices by 5%
Increase (decrease) in income before income tax and in equity		
2012	P26,926,198	(P26,926,198)
2011	8,290,506	(8,290,506)
2010	10,271,590	(10,271,590)

AFS Investments

	Change in fair market value	
	Increase in market indices by 5%	Decrease in market indices by 5%
Increase (decrease) in other comprehensive income and in equity		
2012	P151,418,418	(P151,418,418)
2011	144,361,321	(144,361,321)
2010	149,847,987	(149,847,987)

The impact on the Group's equity already excludes the impact on transactions affecting the statement of comprehensive income.

Fair Values of Financial Instruments

Fair value is defined as the amount at which the financial instruments could be exchanged in a current transaction between knowledgeable willing parties in an arm's length transaction. Fair values are obtained from quoted market prices, discounted cash flow models and option pricing models, as appropriate.

The table below presents a comparison by category and by class of carrying amounts and estimated fair values of the Group's financial assets and liabilities as of December 31, 2012 and 2011:

	2012		2011	
	Carrying Values	Fair Values	Carrying Values	Fair Values
Financial assets at FVPL:

*Excluding accrued taxes.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate such value:

Cash and Cash Equivalents, Receivables, Accounts Payable and Accrued Expenses and Short-term Loans Payable

The carrying amount of cash and cash equivalents, receivables, accounts payable and accrued expenses and short-term loans payable approximate their fair values due to their short-term maturities.

Financial Assets at FVPL and AFS Investments

The fair values of publicly traded instruments and similar investments are determined based on quoted bid market prices at the balance sheet date. For unquoted AFS equity securities for which no reliable basis of fair value measurement is available, these are carried at cost, less impairment loss.

Long-term Debt

The fair value of the long-term debt is based on the discounted value of future cash flows using the applicable rates for similar types of loans ranging from 3.06% to 4.11% in 2012 and 5.90% to 9.08% in 2011.

Fair Value Hierarchy

The Group uses the following hierarchy in determining the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets or identical assets or liabilities
- Level 2: other techniques for which all inputs which have significant effect on the recorded fair value are observable, either directly or indirectly
- Level 3: techniques which use inputs which have significant effect on the recorded fair value that are not based on observable market data

	2012		
	Level 1	Level 2	Level 3
Financial Assets			
Financial assets at FVPL	₱757,001,944	₱—	₱—
AFS investments - quoted equity securities	3,208,368,350	—	—
	₱3,965,370,294	₱—	₱—
	2011		
	Level 1	Level 2	Level 3
Financial Assets

AFS investments - quoted equity securities	2,887,226,420	—	—
	₱3,423,873,302	₱—	₱—

For the years ended December 31, 2012 and 2011, there were no transfers between level 1 and level 2 fair value measurements and no transfers into and out of the level 3 measurements.

Derivative Asset

The Group has bifurcated the embedded equity call option on the loan extended to ACMDC in 2009 (see Note 6). Fair value changes of the derivative asset in 2010, which is presented in the statement of comprehensive income as “Mark-to-market changes of derivative asset” amounted to ₱307,718,166.

Capital Management

The Group’s objectives when managing capital is to maintain a capital structure that provides a balance between the risk associated with higher level of borrowings and the advantages and security of a sound capital position.

The BOD has overall responsibility in monitoring of capital in proportion to risk. Profiles for capital ratios are set in the light of changes in the Group’s external environment and the risks underlying the Group’s business operations and industry.

The Group monitors capital on the basis of the debt-equity ratio which is calculated as total debt divided by total equity. Total debt is equivalent to accounts payable and accrued expenses, income tax payable, short-term loan payable, long-term debt, pension liability and deferred income tax liability. Total equity comprises all components of equity including capital stock, additional paid-in capital, net unrealized valuation gain on AFS investments and retained earnings, reduced by treasury shares.

There were no changes in the Group's approach to capital management in 2012 and 2011. The Group is also not subject to any externally-imposed capital requirements.

The debt-to-equity ratio of the Parent Company as of December 31, 2012 and 2011 is as follows:

	2012	2011
Total liabilities	₱1,848,227,239	₱1,982,240,071
Total equity	3,486,344,592	2,862,340,692
Debt-to-equity ratio	0.53	0.69

The following table pertains to the accounts and balances the Group considers as its core capital:

	2012	2011
Capital stock	₱1,176,632,130	₱1,176,632,312
Additional paid-in capital	4,658,460	4,658,460

Treasury stock	(27,566,075)	(27,566,075)
	₱2,322,406,592	₱2,009,385,933

26. Segment Reporting

As discussed in Note 2 the financial statements, the Group adopted PFRS 8 with effect from January 1, 2009. PFRS 8 requires operating segments to be identified on the basis of internal reports, which is similar to management basis, about components of the Group that are regularly reviewed by the chief operating decision maker.

For management purposes, the Group's operating segments pertain to its investment in VMC, a subsidiary and investments in NTDCC and UPMC, associates. VMC's main business is mining exploration and sale of aggregates. Investments in associates amounted to ₱887,750,848 and ₱925,724,437 as of December 31, 2012 and 2011, respectively. NTDCC owns and operates the Trinoma Commercial Center, while UPMC's main business is the exploration, development, exploitation, recovery and sales of gold.

Management monitors the operating results of its investments in associates separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on total revenues.

ANGLO PHILIPPINE HOLDINGS AND SUBSIDIARY

NOTES TO FINANCIAL STATEMENTS

1. Basis of Preparation and Significant Accounting Policies

Basis of Preparation

The accompanying financial statements have been prepared under the historical cost basis except for financial assets at fair value through profit or loss (FVPL), available-for-sale (AFS) investments and derivative financial instruments, which are carried at fair value. The financial statements are presented in Philippine peso (₱), which is the Company's functional and presentation currency. All values are rounded off to the nearest ₱ except when otherwise indicated.

Statement of Compliance

The accompanying financial statements of the Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

Basis for Consolidation

The financial statements for March 31, 2013 and December 31, 2012 comprise the financial statements of Anglo Philippine Holdings Corporation and its Subsidiary as of March 31, 2013 and for the year ended December 31, 2012. Subsidiary is fully consolidated from the date of acquisition, being the date which the Parent Company obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiary is prepared for the same reporting year as those of the Parent Company, using consistent accounting policies.

All intra-company balances and transactions, including income, expenses, unrealized gains and losses and dividends, are eliminated in full. Profits and losses resulting from intra-company transactions that are recognized in assets and liabilities are eliminated in full.

Significant Accounting Policies

The accounting policies and methods used in the preparation of the financial statements for the period ended March 31, 2013 are the same as those used in the preparation of the financial statements for the year ended December 31, 2012, and **NO** policies or methods have been changed.

2. Receivables

The Company grants interest-bearing and noninterest-bearing advances to its related parties with less than one year credit term. The following are the amounts due from related parties, which are included as part of the "Receivables" account in the balance sheets.

Long-term debt of the Company pertains to loans availed from Euronote Profits Limited (EPL) and The Philodrill Corporation (TPC).

6. Basic and Diluted Earnings Per Share (EPS)

Basic and diluted earnings (loss) per share are computed as follows:

	March 31, 2013
Net income for the quarter ended March 31, 2013	P135,038,012
Divided by weighted average number of common shares	1,164,999,818
Basic and diluted earnings (loss) per share	0.12

The resulting per share amounts are the same for both basic and diluted earnings (loss) per share as of March 31, 2013 since the Company does not have any debt or equity securities that will potentially cause an earnings per share dilution.

7. Management's Assessment and Evaluation of Financial Risk Exposures

A. Financial Risk Exposures

The Group has exposure to credit risk, liquidity risk, market risk, interest rate risk, foreign exchange risk and equity price risk from the use of its financial instruments. The Board reviews and approves the policies for managing each of these risks and they are summarized below.

Credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk arises principally from Group's cash with banks, short term deposits and receivables.

The Group ensures that its financial assets are considered high grade by transacting only with top banks in the Philippines and maintaining good relationships with related parties, key employees, debtors and lessors who are highly reputable and with good credit standing.

Cash with banks are deposits made with reputable banks duly approved by the BOD.

Receivables balances are monitored on an ongoing basis with the result that the Group's exposure to credit risk is not significant. No receivables are past due and all receivables are assessed to be collectible and in good standing as of March 31, 2013 and December 31, 2012. Provisions for impairment losses on trade receivables and other receivables were made on accounts specifically identified to be doubtful of collection.

Other than the receivable which were provided with allowance, all other receivable are assessed to be collectible and in good standing as of March 31, 2013 and December 31, 2012.

The Group's maximum exposure to credit risk is equal to the aggregate carrying amount of its financial assets.

Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's objectives to managing liquidity risk is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when they fall due, under both normal and stressed conditions, without incurring unacceptable losses or risking adverse effect to the Group's credit standing.

The Group manages liquidity risk by maintaining a balance between continuity of funding and flexibility in operations. Treasury controls and procedures are in place to ensure that sufficient cash is maintained to cover daily operational and working capital requirements. Management closely monitors the Group's future and contingent obligations and sets up required cash reserves as necessary in accordance with internal policies.

As of March 31, 2013 and December 31, 2012, the Group's cash and cash equivalents may be withdrawn anytime while its financial assets at FVPL and AFS investments are traded in the stock exchange and may be converted to cash by selling them during the normal trading hours on any business day.

The maturity profile of the Group's financial assets used for liquidity management based on their maturities are as follows:

Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and other market prices will affect the Group's income or the value of its holdings of financial instruments. The objective of the Group's market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

Interest Rate Risk

The Group's exposure to the risk for changes in market interest rate relates primarily to its short-term loans payable and long-term debt obligations with fixed interest rates. Most of the Group's existing debt obligations are based on fixed interest rates with relatively small component of the debts that are subject to interest rate fluctuation. Interest on financial instruments classified as fixed rate is fixed until the maturity of the instrument.

Foreign Exchange Risk

The Group uses the Philippine peso as its functional currency and is therefore exposed to foreign exchange movements, primarily in U.S. dollar currency. The Group follows a policy to manage its foreign exchange risk by closely monitoring its cash flow position and by providing forecast on all other exposures in non-peso currencies.

Equity Price Risk

Equity price risk is the risk that the fair values of equities decrease as a result of changes in the levels of equity indices and the value of the listed shares. The equity price risk exposure arises from the Group's investment in financial assets at FVPL and quoted AFS investments.

Fair Values of Financial Instruments

Fair value is defined as the amount at which the financial instruments could be exchanged in a current transaction between knowledgeable willing parties in an arm's length transaction. Fair values are obtained from quoted market prices, discounted cash flow models and option pricing models, as appropriate.

The table below represents a comparison by category of carrying amounts and estimated fair values of the Group's financial assets and liabilities as of March 31, 2013 and December 31, 2012, follows:

	31 March 2013		31 December 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	P33,324,705	P33,324,705	P38,854,568	P38,854,568

Estimation of Fair Values

The following summarizes the methods and assumptions used in estimating the fair values of financial instruments reflected in the table:

Cash and Cash Equivalents, Receivables, Accounts Payable, Short Term Loans Payable and Accrued Expenses

The carrying amount of cash and cash equivalents, receivables, accounts payable and accrued expenses and short-term loans payable approximate their fair values due to their short-term maturities.

Financial Assets at FVPL and AFS Investments.

The fair values of publicly traded instruments & similar investments determined based on quoted bid market prices at the balance sheet date. For unquoted AFS equity securities for which no reliable basis of fair value measurement is available, these are carried at cost, impairment loss.

Long-term Debt

The fair value of the long term-debt is based on the discounted value of future cash flows using the applicable rates for similar types of loans. The discounted rates were \$ and P risk free rates plus appropriate credit spread.

Fair Value Hierarchy

The Group uses the following hierarchy in determining the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets or identical assets or liabilities

Level 2: other techniques for which all inputs which have significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques which use inputs which have significant effect on the recorded fair value that are not based on observable market data

	March 31, 2013		
	Level 1	Level 2	Level 3
Financial Assets			
Financial assets at FVPL	₱857,255,792	₱–	₱–
AFS investments - quoted	3,851,757,725	–	–
	₱3,779,286,991	₱–	₱–

	December 31, 2012		
	Level 1	Level 2	Level 3
Financial Assets			
Financial assets at FVPL	₱757,001,944	₱–	₱–
AFS investments - quoted	3,208,368,350	–	–
	₱3,965,370,294	₱–	₱–

As of March 31, 2013 and December 31, 2012, there were no transfers between level 1 and level 2 fair value measurements and no transfers into and out of the level 3 measurements.

Derivative Asset

The Group has no derivative assets for the period ended March 31, 2013 and December 31, 2012.
